CERTIFICATE OF INDIRECT COSTS

STATE OF ALASKA
DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT
CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

- 1) All costs included in this proposal to establish fixed indirect costs rates for FY2015 are allowable in accordance with the requirements of the federal award(s) to which they apply and OMB Circular A-87 (2 CFR Part 225), "*Cost Principles for State and Local Governments*." Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- 2) All costs included in this proposal are properly allocable to federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with the applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government will be notified of any accounting changes that would affect the predetermined rate.

SECTION IV
COST POLICY

COST POLICY

The State of Alaska maintains a statewide accounting system (AKSAS) that identifies all expenditures by department, type of cost and appropriation or funding source. Within AKSAS, the department maintains a cost accounting system that identifies costs by division, component, program and funding source. Costs recorded in AKSAS are identified by appropriation and collocation codes. The State's fiscal year is July 1st through June 30th. The State utilizes a modified accrual basis for accounting and financial statements. Financial statements and reporting are extracted from AKSAS with a statewide reporting system (ALDER). ALDER is a data warehouse system and integrated reporting platform for financial and payroll activity.

Accounting Policies

The department incurs and records costs in accordance with State of Alaska fiscal policies and procedures. State policies and procedures have been developed in accordance with generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB). Department procedures and controls are routinely reviewed for compliance with applicable state and federal accounting policies and procedures by the State of Alaska, Office of the Legislative Auditor and by federal program auditors. The Comprehensive Annual Financial Report and the Single Audit for the State of Alaska are audited by Legislative Audit.

Due to the funding of department programs by both state and federal funding sources, two sets of principles are incorporated into the department's policies and procedures related to the assignment of costs to funding sources. Principles related to all funding sources are incorporated within GAAP as recognized by GASB. In addition, principles and procedures which have been followed for the adjustment of costs to federal awards are presented in U.S. Management and Budget OMB Circular A-87 (2 CFR Part 225), "*Cost Principles for State, Local and Indian Tribal Governments*".

Generally Accepted Accounting Principles

There are three basic concepts incorporated within GAAP that are followed. First, costs are necessary and reasonable for proper performance of a program. Second, costs are charged or allocated to programs in accordance with relative benefits received. A program is only charged for services it utilizes or benefits from and is only charged in relation to benefits derived from the service. Third, costs are accorded consistent treatment as either direct or indirect. A cost is not charged to a program as a direct cost if any other costs incurred for the same purpose in like circumstances have been allocated to a program as indirect costs.

OMB Circular A-87 (2 CFR Part 225)

In recognition of OMB Circular A-87 (2 CFR Part 225) requirements, department costs are determined and charged to federal awards in accordance with the following OMB Circular A-87 (2 CFR Part 225) general criteria:

- Costs are necessary and reasonable for proper and efficient performance and administration of federal awards;
- Costs are allocable to federal awards under the provisions of the circular - costs have been allocated to a particular cost objective only if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received;
- Costs are authorized or not prohibited under state or local laws or regulations;
- Costs conform to any limitations or exclusions set forth in the circular principles, federal laws, terms and conditions of the federal award, or other governing regulations as to types or amounts of cost items;
- Costs are accorded consistent treatment - a cost has not been assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost;
- Except as otherwise provided for in the circular, costs have been determined in accordance with generally accepted accounting principles;
- Costs have not been included as a cost or used to meet cost sharing or matching requirements of any other federal award in either the current or a prior period, except as specifically provided by federal law or regulation;
- Costs are net of all applicable credits;
- Costs are adequately documented.

Types of Costs

The department in the performance of its duties and responsibilities incurs both direct and indirect costs. Direct costs are costs that can be specifically or readily identified with a specific cost objective or program. Indirect costs are costs necessary for the effective, efficient operation of programs that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved. Three methods are used to assign costs: direct cost assignment, cost allocation and application of indirect cost rates.

Direct Cost Assignment

The majority of the department's costs are costs that are specifically or readily identifiable with a specific component or program. All direct costs are supported by auditable documentation.

- Salaries and wages are charged directly to appropriate component based on state policies and procedures and applicable OMB Circular A-87 (2 CFR Part 225) requirements for the documentation of personnel services.

- ❑ Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan
 - Alaska Supplemental Benefits - in lieu of Social Security benefits
 - Legal Trust Plan
 - Workers' compensation
 - Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
 - Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

- ❑ Other - all other direct costs are supported by vendor invoices, contracts, reimbursable service agreements and other appropriate documentation.

Cost Allocation

The department allocates costs benefiting more than one program/division that cannot be readily identified with a specific program. Costs are allocated as they occur based on appropriate allocation bases. Costs allocated to central administrative and support units and division administrative units are included in the development of indirect cost rates. Examples of allocated costs are leave costs of personnel charged to multiple funding sources, leased space, communications, photocopying, equipment maintenance agreements, risk management insurance, and office supplies. Section IX, Allocated Costs, of the proposal provides information on allocated costs and bases utilized to allocate costs.

Indirect Cost Rate

The department utilizes indirect cost rates prepared in accordance with OMB Circular A-87 (2 CFR Part 225) to recover some statewide costs, the costs of department-wide central administrative support services, and Division of Vocational Rehabilitation administrative support costs. The department-wide indirect cost rate includes OMB Circular A-87 (2 CFR Part 225) allowable costs of the Office of the Commissioner, Administrative Services Division, Alaska Vocational Technical Education Center and other administrative support costs benefiting all divisions, programs and funding sources of the department. Section VII, FY2015 Department-wide Fixed Indirect Cost Rate, provides the rate proposed for FY2015. Section VI, Classification of Costs, provides information on costs that are included in the department-wide indirect cost rate.

The Vocational Rehabilitation Division's fixed indirect cost rate includes division administrative support costs that benefit all programs administered by the Vocational Rehabilitation Division. Section VIII, FY2015 Vocational Rehabilitation Division Fixed Indirect Cost Rate, provides the rate proposed for FY2015. Section VI, Classification of Costs, provides information on costs that are included in the Vocational Rehabilitation Division indirect cost rate.

This concludes the section of the proposal on the department's Cost Policy.

SECTION VI
CLASSIFICATION OF COSTS

CLASSIFICATION OF COSTS

For the development of indirect cost rates, the department classifies costs as either direct costs, department-wide indirect costs, or division indirect costs. Direct costs are costs that can be specifically or readily identified with a specific cost objective or program. Department-wide indirect costs are costs necessary for the effective, efficient operation of all department programs that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved. Division indirect costs are administrative and support costs of a division that benefit all programs administered by a division.

Schedules are provided in this section that supports the classification of all department costs. All schedules reconcile to department expenditure schedules provided in Section V, Financial Information. A brief description of each schedule is provided in the following text. Schedules are provided following the narratives.

Schedule VI-A: Classification of FY2013 Total Actual Costs

Schedule VI-A provides the classification of the department's total actual costs for FY2013. The schedule reconciles to Schedule V-A, Actual Department Expenditures for the Fiscal Year Ended June 30, 2013, in Section V of the proposal. The schedule also identifies additional non-department financial statement costs that have been incurred on behalf of department programs. Schedule information is utilized in the determination of the FY2013 carry-forward adjustments, which are included in the development of FY2015 fixed indirect cost rates. The schedule is formatted as follows:

- Organization Unit - brief title of divisions and components comprising each division;
- Support Schedule - provides a reference to the support schedule that will provide detail information on costs that have been classified as Department-wide or division indirect costs;

- Description - brief description of cost category;
- Total Costs - total component costs that reconciles to Schedule V-A and VI-A;
- Direct Costs - costs that benefit a specific program, do not benefit all programs and/or are OMB Circular A-87 (2 CFR Part 225) unallowable as indirect costs;

SECTION VII

FY2015 DEPARTMENT-WIDE FIXED INDIRECT COST RATE

FY2015 DEPARTMENT-WIDE FIXED INDIRECT COST RATE

The department utilizes the OMB Circular A-87 (2 CFR Part 225) simplified method for the development of a single fixed indirect cost rate applicable to all divisions and programs of the department. The rate is determined by dividing the department's total budgeted FY2015 OMB Circular A-87 (2 CFR Part 225) allowable indirect cost and FY2013 carry-forward by the department's FY2015 total budgeted direct personal services costs. The rate is calculated by indirect cost source and in total.

FY2015 Indirect Costs

Indirect costs included in the department-wide fixed indirect cost rate are OMB Circular A-87 (2 CFR Part 225) allowable costs that benefit all divisions and programs of the department. Section VI, Classification of Costs, includes schedules that reconcile costs included in the rate and provides detail information on indirect services and costs. Costs have been identified as either department or statewide. Department costs are costs incurred by the department. Statewide costs are costs incurred by other state agencies in support of all department programs.

FY2013 Carry-Forward

The department utilized a fixed indirect cost rate in FY2013. OMB Circular A-87 (2 CFR Part 225) requires that entities utilizing a fixed indirect cost rate determine the difference between the estimated rate, based on budgeted costs and the actual rate for the period based on actual costs. The difference between the rates is to be carried forward as an adjustment to the rate computation of a subsequent period. The calculation of the department's FY2013 carry-forward adjustment is provided on Schedule VII-B, FY2013 Indirect Cost Rate Carry-Forward.

FY2015 Direct Personal Services

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the department less the personal services of positions classified as indirect. Section VI-D, Classification of FY2015 Budgeted Personal Services Costs, provides the support for the classification of personal services as either direct or indirect.

- ❑ Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan
 - Alaska Supplemental Benefits - in lieu of Social Security benefits

- Legal Trust Plan
- Workers' compensation
- Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
- Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

FY2015 Indirect Cost Rate

The following schedules are included in this section that provide and support the development of the department-wide fixed indirect cost rate:

Schedule VII-A: Department-Wide FY2015 Fixed Indirect Cost Rate

The schedule provides the calculation of the department-wide FY2015 fixed indirect cost rate applicable to all divisions and programs of the department. The schedule provides a summary of FY2015 budgeted indirect costs, the FY2013 carry-forward and FY2015 budgeted direct personal services. Rate calculations are provided by indirect cost source and by total.

Schedule VII-B: FY2013 Indirect Cost Rate Carry-Forward

The schedule provides the calculation of the FY2013 indirect cost rate carry-forward. The carry-forward is the difference between potential indirect cost recoveries utilizing the department's fixed FY2013 indirect cost rate based on budgeted costs and the actual or final rate for FY2013 based on actual costs. Carry-forwards are provided by indirect cost source and by total. The carry-forward is included on Schedule VII-A.

This concludes the narrative on this section of the proposal. The schedules are provided on the following pages.

SECTION VIII

***FY2015 VOCATIONAL REHABILITATION DIVISION
FIXED INDIRECT COST RATE***

FY2015 VOCATIONAL REHABILITATION DIVISION FIXED INDIRECT COST RATE

The department utilizes the OMB Circular A-87 (2 CFR Part 225) simplified method for the development of a fixed indirect cost rate allocable to all programs administered by the Vocational Rehabilitation Division. The rate consists of a division administrative rate and the department-wide rate. The division rate is determined by dividing the division's total budgeted FY2015 OMB Circular A-87 (2 CFR Part 225) allowable administrative indirect costs and FY2013 carry-forward by the division's total budgeted FY2015 direct personal services costs. The department-wide rate is the rate developed in Section VII, FY2015 Department-Wide Fixed Indirect Cost Rate, of the proposal.

FY2015 Indirect Costs

Division administrative costs that have been classified as indirect costs are OMB Circular A-87 (2 CFR Part 225) allowable costs that benefit all programs administered by the division. Section VI, Classification of Costs, includes schedules that reconcile costs included in the rate and provide detail information on indirect services and costs.

FY2013 Carry-Forward

The division utilized a fixed indirect cost rate in FY2013. OMB Circular A-87 (2 CFR Part 225) requires that entities utilizing a fixed rate determine the difference between the estimated rate, based on budgeted costs and the actual rate for the period based on actual costs. The difference between the rates is to be carried forward as an adjustment to the rate computation of a subsequent period. The calculation of the division's FY2013 carry-forward adjustment is provided on Schedule VIII-B, FY2013 Indirect Cost Rate Carry-Forward.

FY2015 Direct Personal Services

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the division less the personal services of positions classified as indirect. Section VI-D, Classification of FY2015 Budgeted Personal Services Costs, provides the support for the classification of division personal services as either direct or indirect.

- Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan

- Alaska Supplemental Benefits - in lieu of Social Security benefits
- Legal Trust Plan
- Workers' compensation
- Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
- Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

FY2015 Indirect Cost Rate

The following schedules are included in this section that provide and support the development of the division-wide fixed indirect cost rate:

Schedule VIII-A: FY2015 Fixed Indirect Cost Rate

The schedule provides the calculation of the division's FY2015 fixed indirect cost rate applicable to all programs of the division. The schedule provides a summary of FY2015 budgeted indirect costs, the FY2013 carry-forward and FY2015 budgeted direct personal services. Rate calculations are provided that include only division costs. The schedule also includes the department-wide rate.

Schedule VIII-B: FY2013 Indirect Cost Rate Carry-Forward

The schedule provides the calculation of the FY2013 indirect cost rate carry-forward. The carry-forward is the difference between potential indirect cost recoveries utilizing the division's fixed FY2013 indirect cost rate based on budgeted costs and the actual or final rate for FY2013 based on actual costs.

This concludes the narrative on this section of the proposal. The schedules are provided on the following pages.

SECTION IX
ALLOCATED COSTS

ALLOCATED COSTS

The department allocates costs benefiting more than one program/division that cannot be readily identified with a specific program. Costs are allocated as they occur based on appropriate allocation bases. Costs allocated to central administrative and support units and division administrative units are included in the development of indirect cost rates. Any allocable cost that can't be charged to the federal program (because of funding allowability or exhaustion of funds) will be allocated to a state funded appropriation to ensure federal funding is only allocated the equitable share of costs.

Brief descriptions of types of allocated costs and bases utilized to allocate costs are provided in the following text.

Employee Leave

Costs of leave for organization units with employees that charge to multiple funding sources are pooled and allocated monthly to benefiting programs. A cost pool is established for each organization unit. The basis for allocating each unit's leave costs is the year-to-date (YTD) direct personal services costs of benefiting programs.

Management and Administration

In some cases, personal services (salaries, leave and benefits) of division management and administrative staff benefiting multiple programs are pooled by unit and allocated monthly to benefiting programs. A cost pool is established for each unit and only allocated to benefiting programs of the unit. The basis for allocating each unit is the YTD personal services costs of benefiting programs in the unit.

Support Services and Supplies

Services and supplies that are purchased in support of multiple programs and/or units are pooled by unit and allocated monthly to benefiting programs. Examples of support services and supplies that may be allocated include paper, office supplies, books, subscriptions, membership dues, copying, communications and training. The basis for allocating each unit is the YTD personal services costs of benefiting programs.

Alaska Workforce Investment Board

Costs for the Alaska Workforce Investment Board (AWIB) include personal services, board travel, services, and supplies required for oversight functions and staff support of the board. The basis for allocating costs in this pool is the prior year proportionate share of actual total program costs of each of the training programs covered by the AWIB oversight function.

Data Processing

The department's Data Processing section has multiple teams whose time is accounted for in a variety of ways. Teams are identified by title and function to more easily track them organizationally and in terms of how their costs are charged. These teams have been color coded as noted:

- Yellow - management of the section
- Blue - network services (desktop and connectivity support)
- Purple - network services for job centers only
- White - programming
- Grey - systems and security, research, project development and training
- Green - database, job scheduling and other programming support

The single "yellow" position provides the overall management of the section. The "blue" network services positions provide desktop, server and software support to all positions in the department. This includes the Unemployment Insurance (UI) call centers and the job centers throughout the state but excludes AVTEC since they provide their own DP network support. Each position in this group charges their time that is specifically for either a UI call center or a job center to those funding sources, with all other time that is not distinct to one of those two functions going to DP Operations (DP OPs). The "yellow" and "blue" DP OPs costs are collected and allocated to all components of the department based on position count.

The "purple" position charges only Wagner Peyser since that position is dedicated to supporting the network services needs of job centers throughout the state.

The "white" programming team works on projects for maintenance or enhancement of specific systems and therefore directly charges it's time to the programs supported by the specific systems. The majority of the support does go to mainframe or web based applications that are paid from either UI Administration or Wagner Peyser funding, but these also include other mainframe and desktop applications paid from other funding sources.

The "grey" systems security team provides planning, research, security, training, and other similar support to the programmers. These costs are pooled and allocated to the projects and systems worked on by the "white" team programmers based on their collective YTD personal services.

The "green" team provides database support and schedules jobs that are run on the mainframe. They support either UI or Wagner Peyser since those are the only jobs run on the mainframe. It would be impractical to charge their time to either Wagner Peyser or UI Administration as the

activities performed benefit jobs paid by both grants. The department is billed for mainframe usage based on units used which are identified to specific jobs, nearly all of which are paid by either UI or Wagner Peyser. Therefore, these positions are allocated based on the Measure of Incremental Service (MICS) charging between Wagner Peyser and UI jobs for the last full fiscal year. In FY2014, the total MICS for UI was \$1,344,125; and for Wagner Peyser, it was \$1,671; for a total of \$1,345,796. Therefore in FY2015 these positions are charged 99.88 percent to UI and .12 percent to Wagner Peyser.

Non-personal services charges are pooled for the section and, like the leave, are charged based on relative share of YTD personal services for each team.

Labor Standards and Safety, Occupational Safety and Health (OSH)

OSH is comprised of two programs which are state program enforcement and consultation. Both programs are partially funded by federal grants, 23G and 21D, respectively. The 23G grant provides 50 percent federal funds and 50 percent state match, and the 21D grant provides 90 percent federal funds and 10 percent state match. Personal services costs of staff benefiting these programs are comprised of three sets of employees: direct program staff and program managers, division management staff, and clerical support staff.

OSH program staff and managers comprise of enforcement staff that must charge 23G, and consultation staff that must charge 23G for public site consultations or 21D for private site consultations. Consultation staff time is charged as a relative percentage of public to private consultation visits based on the annual Alaska OSH Evaluation Report. Management staff costs are pooled and distributed based on YTD personal services of the program staff, but coded to the administration category under the grant. Clerical support staff direct charge the program when supporting program staff and otherwise charge administration. Clerical pooled program and administrative costs are allocated based on YTD personal services of the program and management staff.

Statewide Cost Allocation Plan (SWCAP) – Core Services

Costs in the SWCAP (Appendix F) are common to all state agencies and are detailed and approved annually by the US Department of Health and Human Services (USDHHS) and are listed in Section I and II on the SWCAP Cost Allocation Agreement.

Section I – Allocated Costs

Some costs, as detailed in Section I, are in the SWCAP but are not billed to agencies. The department share of those costs is included in the indirect cost pool as a statewide cost.

Section II – Billed Costs

Costs as detailed in Section II, are billed costs on the SWCAP agreement. Each cost is allocated to all departments, based on the approval of the SWCAP and they are then further allocated or direct charged within the department in the same way unless otherwise noted for that item. In many cases, after these costs are allocated to the component, they are further allocated through that component's Management and Administration allocation, which is based on relative share of YTD personal services costs.

Facility Leases

For most leases, the cost of leased office and storage space is paid to the lessors by the department of Administration (DOA). DOA, in turn, bills the agency occupying the space. In addition, a lease administration fee is charged by DOA based on a combination of relative share of leases in total and relative share of dollar value of said leases. The department, in turn, combines the total billed to the department for the lease with the lease admin for each lease and allocates the result to the occupying division or section.

Some of the department's lease costs are for public facilities owned by another state agency. In those cases, the owning agency (most often DOA, the Department of Transportation & Public Facilities, or the Court System) bills the department for the cost of maintenance, etc. as described and approved through the SWCAP.

For those leases or lease costs for space benefiting multiple programs, the department first tries to allocate the charges to that component's programs by relative share of space occupied; in some cases, when it is not practical to allocate the charges based on relative share of space occupied at the program level, the charges are either distributed through the division's Management and Administration allocation or by position counts identified in the grant applications.

DOA Central Mail Services

DOA processes mail for all departments of state government. Their services cover incoming mail being sorted and distributed to agencies, as well as printing, mailing and processing of warrants (UI, payroll and general warrants) and other outgoing mail. They collect their costs in various pools such as personnel, equipment, warrant stock, envelopes, postage, etc., by each of these four categories: general mail, AKSAS warrants (accounting, payments to vendors and contractors), AKPAY warrants (payments to employees) and UI (warrants and information mail-outs). They also collect their costs for other items for which this department is not charged, but since they do not benefit the department and the department is not charged, those are not described here.

The department is billed for AKSAS and AKPAY warrant processing based on warrant count, but the department reallocates those costs within the department based on relative share of positions since there is not a way of determining warrants used by funding source.

The department is billed for general mail handling based on a combination of items, with the largest single component of the charge being postage. The postage is metered based on the mail

being handled and is charged to the program benefiting by that mail. Thus, the department charges this piece of the bill to the benefiting programs based on relative share of postage charges.

The department is billed for UI warrant and information mail-outs handling based on the time spent under the approved SWCAP agreement, and those charges are direct charged to the UI Administration.

DOA Division of Finance - AKPAY/AKSAS

DOA charges all departments for their share of the cost of running the accounting (AKPAY) and payroll (AKPAY) systems and the other centralized services and assistance they provide. Each department is charged their share based on relative share of position counts.

DOA Division of Personnel - Human Resource Services

DOA provides oversight of some personnel services including timesheet processing, employee pay issues, labor relations, and other related services. Each agency is billed for their share based on relative share of positions.

DOA Enterprise Technology Services (ETS) - Enterprise Productivity Rates (EPR)

DOA bills agencies for their share of telephone (TC EPR) and computer (CS EPR) infrastructure costs based on relative share of positions. These costs are described in the SWCAP and are for things such as network services for transmission of voice and data between state offices, repair and maintenance and other support of radio and telephone equipment, data processing (DP) storage, DP printing, DP programming and the general infrastructure of the state's computer system of which all agencies are a part.

DOA ETS - Measure of Incremental Service (MICS)

DOA bills agencies for their use of computer resources based on the ID used when signing on to the system. Some programs use very little of these resources and their share of the bill is very small, so those small costs are charged to the indirect cost pool. The combined total of the charges that result from staff in the indirect cost pool and the small charges that would otherwise go elsewhere are significantly less than \$5,000 per year.

DOA ETS - Anti-Virus Software and Microsoft Enterprise Agreement

DOA bills each agency for the state's anti-virus software and for the Microsoft Enterprise Platform based on a physical inventory.

DOA ETS - Automated Budget System (ABS)

DOA charges agencies for their share of the cost of running the automated budget system based on the number of ABS users within each department.

DOA ETS - Telecommunications PBX

DOA provides each department with telecommunication devices and services between most state offices. The department is billed for the phone service incurred by each device owned by the department.

DOA Division of Risk Management - Insurance

The Division of Risk Management bills agencies for their share of property, liability, and public official bond insurance that they hold for all State agencies as well as their costs of providing that service. The overhead and public official bond charges are allocated within the department based on relative share of position count. The charges for property insurance are allocated to the components occupying the property.

Department of Law - Legal Services

The Department of Law bills agencies for the legal services provided based on actual hours spent and the department direct charges these to the benefiting program that used those services.

Division of Legislative Audit - Audit Services

The Legislative Auditor and staff conduct the post-audit function in the budget cycle in accordance with federal OMB Circular A-133, the Constitution of the State of Alaska, and Title 24 of the Alaska Statutes. All audits performed by the division are external audits; that is, they are performed by an auditor who is independent of the executive head of the government unit or agency being audited. The three major types of audits performed are financial compliance (aka Statewide Audit), performance and special audits. The department is charged for some of the cost of these audits, but some costs are not billed to agencies except in a "memo" to identify those amounts that were not billed. The charges are based on hours spent. Performance and special audits are program specific so the department direct charges the amounts for those audits to the benefiting program. The department allocates the amount charged for the statewide audit based on position count. The "memo" billing for the statewide audit that represents charges that were incurred but not billed, are included in the indirect cost pool as a statewide cost.

Department of Administration (DOA) - Americans with Disabilities Act

Starting in March 2012, per Alaska Administrative Order No. 262, DOA provides the statewide ADA coordination for all state agencies. DOA bills the state agencies for their share of services based on relative share of positions. The department allocates its share of the cost within the department in the same way.

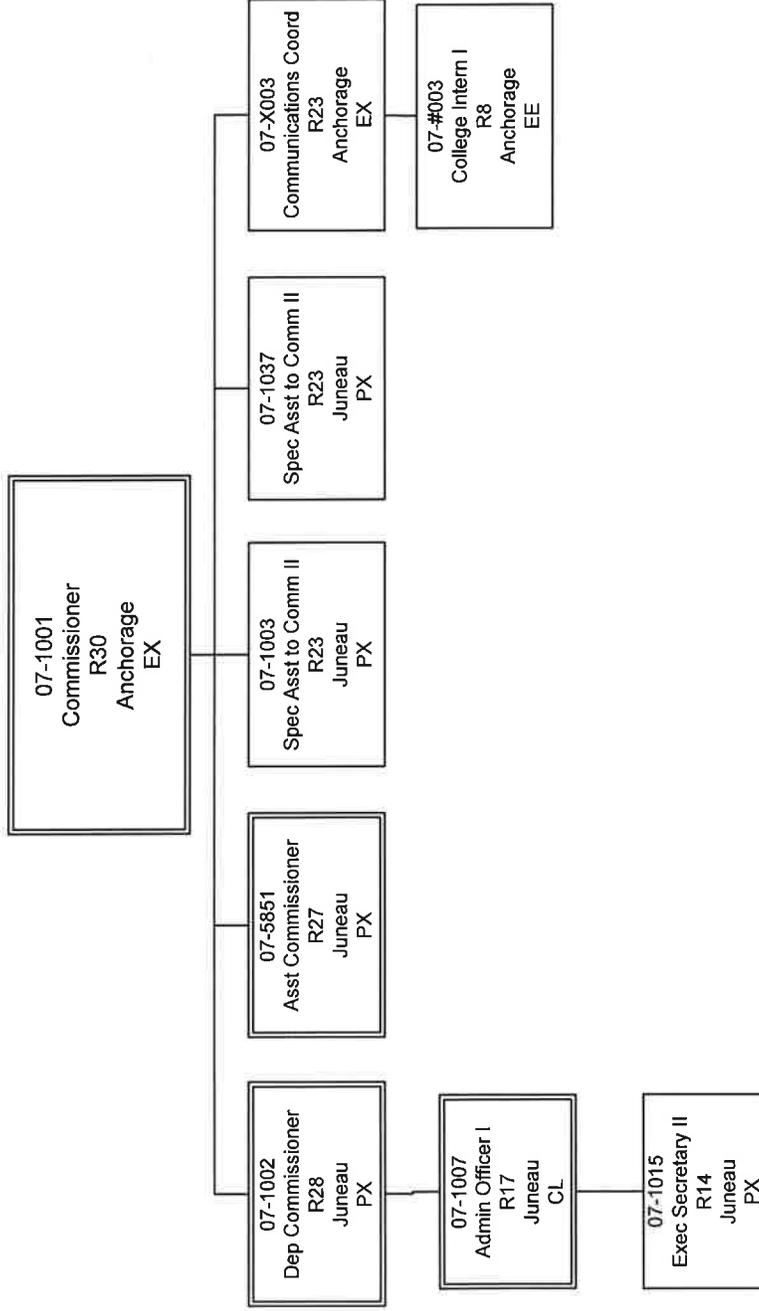

This concludes the section of the proposal on allocated costs.

FY2013 LEGISLATIVE AUDIT

MEMORANDUM

State of Alaska
Division of Legislative Audit
Phone: (907) 465-3830; Fax: (907) 465-2347

To: Rachel Paguio, Accountant V
Division of Administrative Services
Department of Labor and Workforce
Development

Date: September 9, 2013
Telephone: 465-3830

From: Kris Curtis *KC*
Legislative Auditor

Subject: Memorandum Billing for
FY 13 Audit Services

The purpose of this memorandum is to provide each agency a breakdown of the costs of audit services provided by the Division of Legislative Audit to that department. This breakdown will allow each agency to maximize federal or other funding participation for these costs. Audit costs are not included in the statewide cost allocation plan; therefore, it is up to each agency to direct bill these costs to their programs or elect to incorporate them into the department's indirect cost plan. No additional payments to the Division of Legislative Audit are required.

Analysis of Department of Labor and Workforce Development audit costs are as follows:

Audit Project	Previously Billed	Informational Billing (Memo)	Total Audit Costs FY 13
Statewide Single Audit - FY 12	\$ 16,420.00	\$ 134,590.00	\$ 151,010.00
Statewide Single Audit - FY 13	2,688.00	92,251.00	94,939.00
Other Audits	0.00	0.00	0.00
Total Audit Costs	\$ 19,108.00	\$ 226,841.00	\$ 245,949.00

OMB Circular A-87 states that audit costs may be allowable as either direct or indirect costs. Items to consider when determining if these will be charged as direct or indirect costs are:

- Statewide single audit costs are allowable as a direct cost;
- Other audits require specific approval of the federal awarding or cognizant agency to be allowable as a direct cost;
- Costs for all audits (both statewide single audit and other audits) are eligible as indirect cost;
- For a given fiscal year, all audit costs must be charged in the same method; and
- The agency may, under the direct cost method, consider these costs to be matching expenditures or replacement expenditures for other expenditures that may have been disallowed by the federal government.

The amounts identified as informational or memo billings are audit costs that the departments may seek additional reimbursement in either the direct or indirect method (as discussed above). These additional FY 13 audit costs must be treated in the same manner as the previously billed audit costs to ensure consistent treatment.

A direct billing approach will require additional information to ensure a proper allocation of costs to all programs (federal and non-federal) that benefit from these services. Please contact Kris Curtis (465-3830) for the additional information.

Memorandum

To: Administrative Service Directors

From: Scot Arehart *SA*
Director

Date: August 2, 2013

Subject: **Fiscal Year 2013 Memo Billing for AKSAS, AKPAY, and ALDER Chargeback**

This memo informs you of the amount of AKSAS, AKPAY, and ALDER chargeback not billed, but allowable and allocable to your department under the fiscal year 2013 Statewide Cost Allocation Plan (SWCAP), which was approved by our federal cost negotiators at the U.S. Department of Health and Human Services. *You do not have to pay this unbilled amount.*

The amount is being provided to you in "memo billing" form¹ for your department to maximize federal or other funding participation in these allowable costs. Depending on your departmental cost allocation plan, these memo billing expenditures may be used as either direct or indirect costs. The allocation basis approved by the federal cost negotiator in Section II of the FY 2013 SWCAP for these costs was transaction count for AKSAS and position count for AKPAY and active users for ALDER.

For federal or other funding participation, these memo billing expenditures are essentially the same as the AKSAS, AKPAY, and ALDER chargeback you actually paid. They are allowable costs that can be allocated across your funding sources. They may be billed, or used as match, or used to replace expenditures that are disallowed by the federal government as a result of the audit process. One caveat of OMB Circular A-87 is that like costs receive like treatment, so the memo billing expenditures must be charged in the same method as the AKSAS, AKPAY, and ALDER chargeback you paid for fiscal year 2013.

The following table shows the amount of AKSAS, AKPAY, and ALDER chargeback allocable, previously billed, and the memo billing amount for each agency in fiscal year 2013.

- IV. Cost Allocation Agreement
- V. FY 2013 Fixed Costs

The enclosed report is a Summary of the Statewide Cost Allocation Plan for the Fiscal Year 2013. Detailed Plans are on file in the Division of Finance and the Alaska State Library.

SECTION I
INTRODUCTION

INTRODUCTION

The State-wide Cost Allocation Plan (SWCAP) for indirect services provided by central services agencies of the State of Alaska for fiscal year 2013 is based on actual data incurred during the fiscal year ended June 30, 2011 (FY 2011). The Plan was prepared by MAXIMUS, Inc. at the request of the Department of Administration, State of Alaska.

The U.S. Office of Management and Budget issued OMB Circular A-87 (2 CFR Part 225), which defines allowable expenditures for Federal grants. The Circular establishes procedures for recovering both direct and indirect costs of programs. The Circular requires that a state wishing to claim indirect costs as charges against Federal grants, prepare an annual SWCAP and submit the Plan for approval to a designated Federal department for review and approval.

This SWCAP, based on actual data incurred during the fiscal year ended June 30, 2011, should be fixed and used on all indirect cost proposals for Federal programs during the State's fiscal year ending June 30, 2013 (FY 2013).

The SWCAP is formatted as follows:

- Certificate of Cost Allocation Plan** - a certification by an authorized official that the SWCAP has been prepared in accordance with applicable policies and procedures of OMB Circular A-87 (2 CFR Part 225).
- Organization Chart** - a current State of Alaska organization chart.
- Cost Allocation Agreement** – agreement signed by federal cognizant agency (DHSS) and the State of Alaska.
- FY 2013 Fixed Costs** - schedule which summarizes fixed costs for each State agency.**Cost Allocation Plan** - detailed analysis and allocation of central services agencies based on FY 2011 data.

CERTIFICATE OF COST ALLOCATION PLAN

**STATE OF ALASKA
STATEWIDE COST ALLOCATION PLAN
CERTIFICATE OF COST ALLOCATION PLAN**

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in the FY 2013 Statewide Cost Allocation Plan to establish cost allocations or billings for the fiscal year beginning July 1, 2012 and ending June 30, 2013 are allowable in accordance with the requirements of OMB Circular A-87 (2 CFR Part 225), "*Cost Principles for State and Local Governments*," and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

The Department of Fish and Game's mission is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and well-being of the people of the state, consistent with the sustained yield principle in the Alaska Constitution. The commissioner and the department conduct management and research functions necessary to support this mission.

Psychiatric Institute; and provision of Medicaid services for low income and disabled Alaskans.

It provides legal assistance to state and local law enforcement, the Department of Corrections and the Division of Juvenile Justice. It also works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Dear Mr. Arehart:

A copy of a Negotiation Agreement approving the central service cost allocation plan for the fiscal year ending June 30, 2013 is attached. This Agreement reflects an understanding reached between your organization and a member of my staff concerning the central service costs that may be included as indirect costs in your departments and agencies that have Federal grants and/or contracts. Please have the Agreement signed by a duly authorized representative of your organization and return it to me BY FAX, retaining the copy for your files. We will reproduce and distribute the Agreement to the appropriate awarding organizations of the Federal government for their use.

Our review included the University of Alaska (UA) share of the interest costs incurred by the State to service the Higher Education Facility General Obligation Bonds. It was determined that the UA share of the interest costs was \$4,638,557 for the fiscal year ending June 30, 2011.

A cost allocation plan proposal together with supporting information are required to substantiate your claim for costs under grants and contracts awarded by the Federal government. Thus, your next proposal based on actual costs for your fiscal year ending 06/30/12, is due in our office by 03/31/13.

Sincerely,

A. LIMITATIONS: (1) Charges resulting from this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available. (2) Such charges represent costs incurred by the State/locality which are legal obligations of the State/locality and are allowable under OMB Circular A-87. E. USE BY OTHER FEDERAL AGENCIES: This Agreement was executed in accordance with the authority in OMB Circular A-87, and should be applied to grants, contracts and other agreements covered by that Circular, subject to any limitations in Paragraph A above. APPENDIX G
TAX COLLECTION ACTIVITY

**STATE EMPLOYMENT SECURITY AGENCY
TAX COLLECTION ACTIVITY
DESCRIPTION OF UNIT OPERATION**

The Employment Security Tax Unit is responsible for the collection of taxes from Alaska employers for Unemployment Insurance (UI) Tax and two state programs: the State Employment and Training Program (STEP) and the Alaska Training and Vocational Education Program (TVEP). The Tax Unit incurs costs directly related to UI and costs that benefit both UI and state programs. Costs directly related to UI are recorded directly into a cost center established for UI on the state accounting system (AKSAS). Costs benefiting both UI and state programs are allocated or split between UI and state programs on the ratio established by U.S. Department of Labor, currently 81% to UI and 19% to state programs.

Collection activities and processes of the Tax Unit were reviewed by the U.S. Department of Labor, Division of Cost Determination, soon after STEP began. After the review, a shared cost agreement was reached between the state and federal partners that the state portion of shared costs would be 19%. This agreement has been in place since 1994. On January 25, 2002, the Alaska Department of Labor and Workforce Development requested that the agreement to split common tax collection costs 81% UI and 19% state be reconfirmed. The U.S. Department of Labor, Employment and Training Administration, confirmed that the agreement is still valid and in effect.

For the last full year (fiscal year beginning July 1, 2013 and ending June 30, 2014), the total cost was \$3,408,653. Of that amount, \$2,761,009 or 81% was paid with UI Administrative funds, \$323,822 or 9.5% was paid with STEP funds and \$323,822 or 9.5% was paid with TVEP funds.

STATE UNEMPLOYMENT INSURANCE AGENCY PENALTIES AND INTEREST ACTIVITY DESCRIPTION OF UNIT OPERATION

The Unemployment Insurance Benefit Payment Control Unit (BPC) is responsible for auditing Unemployment Insurance (UI) claims, detecting fraud, declaring benefit overpayments, collecting overpayments and assessing penalties on fraudulent UI claims. The State of Alaska assesses administrative penalties, but not interest, when benefit overpayments from fraud occurs (AS 23.20.390).

In order to isolate the costs of assessing and collecting penalties, the department first had to identify the costs associated with fraud. The department looked at the last two state fiscal years of cases (FY2013 and FY2014¹) and calculated that 11.53% of BPC's expenditures are related to fraud case management. In FY2014, the total cost incurred by the BPC Unit was \$1,831,766 with \$211,234 attributable to fraud.

To isolate further the costs of assessing and collecting penalties, the department analyzed the way investigators manage their cases to determine the methodology used in allocating these costs. Penalties are assessed when specific data elements are entered in the Benefit Audit, Reporting and Tracking System (BARTS). The process of penalty assessment and generating collection letters is automated with the interface between the BARTS and UI database. A daily batch run identifies and calculates the penalties for each individual claim and rolls the data in the UI database. Investigators use 31 screens when they manage fraud cases and 6 of those screens (19.35%) have data elements that must be entered in order for penalties to be assessed. Therefore, out of the \$211,234 attributable to fraud, 19.35% or \$40,884 are the costs associated with penalties.

The methodology to allocate the costs between state versus federal is based on the percentage of revenue from penalties recorded to each fund at the end of each state fiscal year. Penalties assessed for state employees are recorded against the state general fund. Penalties assessed for federal employees remains in the UI Trust starting in FY2014. The FY 2014 percentage of revenue from penalties recorded to the state general fund was 70%. That would mean that the state needed to absorb about \$28,619 of the cost. Once FY2015 revenues are finalized, this percentage might change and will be reconciled similar to all other allocated costs in the department.

¹ Fiscal year 2013 beginning July 1, 2012 and ending June 30, 2013;
Fiscal Year 2014 beginning July 1, 2013 and ending June 30, 2014

This is to certify that I have reviewed the penalties and interest activities submitted herewith and to the best of my knowledge and belief:

1. All costs of the penalties and interest collected were used only for the benefit of the Unemployment Insurance program.
2. As a result of the execution of the cost allocation plan for fiscal year ending June 30, 2014, \$28,619 was credited to the UI appropriation from non-federal sources.

I declare that the foregoing is true and correct.

APPENDIX I
INCOME ELIGIBILITY VERIFICATION SYSTEM

INCOME ELIGIBILITY VERIFICATION SYSTEM

As the State Employment Security Agency for the State of Alaska, the Alaska Department of Labor and Workforce Development operates the State's Income Eligibility Verification System (IEVS). The department's Employment Security Division (ESD) operates the system in accordance with applicable sections of the Social Security Act (SSA). ESD operates the system and allows authorized agencies access to wage and unemployment compensation data maintained on the system. ESD is also authorized to acquire and maintain any information from state agencies identified in Section 1113 of the SSA.

- The following agencies are utilizing Alaska's Income and Eligibility Verification System pursuant to Sec. 1137 (42.U.S.C. 1320b-7):
 - Alaska Department of Health and Social Services (DHSS) - Electronic data access is provided "online" to DHSS. Benefiting DHSS administered programs include the Alaska Temporary Assistance Program, Medicaid, Adult Public Assistance, Chronic and Acute Medical Assistance, General Relief Assistance, Supplemental Nutrition Assistance Program (a.k.a. Food Stamp Program), and Energy Assistance Program.
 - Alaska Department of Revenue (DOR) - Electronic data access is provided "online" to DOR. The Child Support Enforcement Division of DOR utilizes the system.
 - Central Council of Tlingit and Haida Indian Tribes of Alaska (CCTHITA) - Electronic data access is provided via the provision of data sets automatically extracted and available to CCTHITA through connections with the Alaska Department of Administration's mainframe. CCTHITA administers Temporary Assistance to Needy Families (TANF) programs in southeast Alaska native communities in cooperation with U.S. Department of Health and Human Services (U.S. DHHS).
 - Association of Village Council Presidents (AVCP) - Electronic data access is provided via the provision of data sets automatically extracted and available to AVCP through connections with the Alaska Department of Administration's mainframe. AVCP administers TANF programs in Bethel region native communities in cooperation with U.S. DHHS.
 - Other State Agencies - Any other state agencies authorized in SSA to receive data maintained on IEVS.
 - Social Security Administration (SSA) - Electronic data access is provided "online" to a limited number of SSA employees located within Alaska's borders.
- Copies of written agreements with requesting departments and agencies utilizing the system are available upon request.

- ❑ The department does not recover any costs from requesting agencies for costs associated with the data acquisition, data entry, or maintenance and operation of IEVS. IEVS is maintained on the Department of Administration's (DOA) mainframe computer system. Data processing costs associated with online access and mainframe acquisition of data sets is billed directly to agencies by DOA.

The department has virtually eliminated costs for provision of IEVS data to authorized agencies by allowing agencies either online access through DOA or by the provision of data sets available on the DOA mainframe computer system. Agencies with online access are linked to IEVS through authorized workstations. Agencies without online access may acquire data through connection with DOA's mainframe. A mainframe computer program automatically extracts data records from the department's database and places data sets in an accessible file automatically and on a scheduled routine. In this manner, agencies utilizing IEVS recover the data and incur all costs associated with acquisition of the data from IEVS.

- ❑ The only agency that the department has a separate agreement with for tape matching services is the Alaska Department of Revenue (DOR), Tax Division. States are required to share wage and unemployment compensation records with the U.S. Internal Revenue Service (IRS) for the purposes of the Federal Unemployment Tax Act. An agreement is not required. IRS issues a summons for records.

The department's agreement with DOR is to supply wage data for the purpose of verifying the Alaska payroll reported on the apportionment schedule of the Alaska Corporation Net Income Tax Returns required by Alaska Statute 43.20. Data sharing is authorized by AS 23.20.110(a).

- ❑ As previously stated, the department has recovered no funds from other agencies related to IEVS.
