Alaska Health Workforce Coalition

Presenters:
Karen Perdue, President/CEO, Alaska State Hospital and Nursing Home Association
Delisa Culpepper, COO, Alaska Mental Health Trust Authority
Jan Harris, Vice Provost, Health Programs, University of Alaska/UAA
Alaska Health Workforce Coalition

- A public–private partnership created to develop, implement, and support a statewide approach to ensure a robust workforce to address Alaska’s growing health care needs
Coalition Approach

Alaska’s Health Workforce Adequate & Qualified

Health Workforce Plan

- Advance
  - OccupatioAnal
  - Priorities
- Systems Change and Capacity Building
- Monitor Plan Results

Define and lead selected initiatives

Create and maintain an integrated strategic and implementation plan

Prioritize, advocate, and monitor

Compile, maintain and use

Health Workforce Data
Action Agenda 2012–2015

Occupational Priorities
- Primary Care Providers
- Direct Care Workers
- Behavioral Health Clinicians
- Physical Therapists
- Nurses
- Pharmacists

Systems Change and Capacity Building
- Health Profession Loan Repayment and Incentive Programs
- Training and Professional Development
- Aligning regulatory policies that impact the health workforce
- Engage and prepare Alaskan youth for health careers
- Health workforce recruiting
- Health workforce data

- Department of Health and Social Services

EDUCATION
- University of Alaska/Anchorage
- Anchorage School District
- Alaska Area Health Education Centers
- Avant–Garde Learning Alliance
- Career Academy

FEDERAL
- US Department of Labor
Prior to 2009

- AMHTA, DHSS and UA partnered to begin the Behavioral Health Initiative Partnership (BHIP)

- BHIP focused on occupations within the behavioral health, seniors and community based services field, such as
  - Direct Care Workers
  - Psychiatrists
  - Advanced Clinical Degrees
April 2009
- Coalition formed to develop a strategy for tackling workforce issues in the health industry
- Gathered vacancy data and discussed strategies

September 2009–April 2010
- Outreach to conferences and constituency groups for additional perspectives

May 2010
- Plan finalized and adopted by key stakeholders including Alaska Workforce Investment Board
2010 Health Workforce Plan Highlights

- 15 High Priority Occupational Groups including 30 occupations
- Comprehensive view of the workforce issues facing the industry
- Broad action steps identified
- Articulated goals across the workforce development spectrum and applied them to high priority occupations:
  - **Engage** – Alaskans in health workforce careers
  - **Train** – Alaskans for health employment
  - **Recruit** – qualified candidates to fill health positions
  - **Retain** – a skilled workforce
September 2010: Funding received from HRSA to focus on health workforce data

January–July 2011:
- Engaged staff and consultants
- Conducted information gathering on the high priority occupational groups
- Narrowed down to 6 occupational groups and uncovered systemic issues that impact health workforce
- Merger with Alaska Mental Health Trust Authority’s Workforce Focus Area

September 2011 and beyond:
- Action Agenda 2012–2015
- Sustainability and accountability
Many types of data are available – occupations projections, vacancies, industry information, student data – but the picture is incomplete.

Working on developing a more comprehensive and integrated set of data to allow for better prediction of critical needs.
Alaska’s fastest growing Industry

Industry and occupational characteristics, costs, benefits, economic impact
Health Care Industry

Health Care’s Employment and Total Wages
By economic region, Alaska 2010

- **Northern**
  - Employment: 1,131
  - Wages: $65,304,004

- **Interior**
  - Employment: 4,055
  - Wages: $191,749,339

- **Southwest**
  - Employment: 1,665
  - Wages: $91,545,516

- **Gulf Coast**
  - Employment: 3,190
  - Wages: $135,127,989

- **Southeast**
  - Employment: 3,094
  - Wages: $149,476,844

**Note:** Average annual employment

Preparing Health Care Workers

9 Training for Future Health Care Jobs¹
By required education level,² Alaska 2018

Health Care Support Occupations
Average Annual Wages = $37,180 (2010)
- Short-Term OJT 52.0%
- Moderate OJT (0.5 to 12 months) 26.9%
- Vocational 21.0%

Health Care Practitioner and Technical Occupations
Average Annual Wages = $85,900 (2010)
- Bachelor's 10.3%
- Master's 7.8%
- Ph.D./Professional 11.2%
- Moderate OJT 5.8%
- Long-Term OJT 1.0%
- Vocational 11.0%

Notes: Percentages do not sum to 100 percent due to rounding. OJT stands for “on-the-job training.” Short term OJT is one month or less, moderate OJT is one to 12 months, and long-term OJT is more than a year.
¹Percentages are based on projected total openings in 2018 for health care occupations listed in Exhibit 8.
²Training levels are based on minimum training needed to get the position.

The Picture of Health Workforce Data

- SOA – demographic, economic, community data
- DOLWD 10 year occupational projections – based on historical industry data regarding jobs and employees; also average wages, #>50 years, # out-of-state residents
- DOLWD industry data
- DHSS licensure analysis – changes in numbers of license-holders by profession over time
- UAA/AHEC vacancy studies – point in time surveys of existing positions in Alaska health care organizations done every 2–3 years; also recruitment cost studies and retention
- UA student data – enrollment, awards (degrees, certificates) and supply projections
- HRSA Bureau of Health Professions – per capita professionals, compared to other states
- Other – special topics and studies; frequent interactions with industry; data spreadsheet
Improving the Picture

- **UAA/AHEC** – vacancy study trend analysis
- **UAA** – student persistence data
- **DOLWD** – turnover studies
- **Cross-walk** of industry job titles and DOLWD SOC codes
- **DHSS** – additional licensure studies
- **DHSS** – community health status data
- **DHSS** – use of discharge and claims data
- Health workforce data compendium
Action Agenda Highlights

2012–2015
Primary Care Providers

- Focus on training Nurse Practitioners and assessing current medical education options and other training programs

**Objectives:**
- Medical education options assessment
- Fairbanks family medicine residency feasibility study (DO/MD)
- UAA Nurse Practitioner programs expansion
- Support-for-service resources
- Physician recruitment/retention survey
- Plan for medical residencies
Direct Care Workers

- Implementing the Competency Tools and overcoming barriers to implementing apprenticeship

Objectives:

- *Alaska Core Competencies for Direct Care Workers*
- *Assessment Tools*
- Advanced CNA registered apprenticeship at Pioneer Homes
- Work group results/recommendations for improved training
Behavioral Health Clinicians

- Master’s/doctoral preparation; focus on psychiatric residency and psychiatric nurse practitioners, shared learning and practice models

Objectives:
- Psychiatric residency
- Psychiatric/Mental Health Nurse Practitioner collaboration
- Plan for structures/models to reduce burnout
- Loan repayment/employment incentives for Behavioral Health Clinicians
Physical Therapists/Physical Therapist Assistants

- Alaska specific solutions to training; partnerships

Objectives:
- Assessment of options for physical therapy careers education, including partnerships
- Funding physical therapy careers programs
- Equipping physical therapist assistant program
- Implementing Alaska solutions for physical therapy careers education
Focus on professional development (specialties, RN→BS, nurse educators)

Objectives:
- Formal industry input into programs
- Pilot enhanced RN→BS program model
- Review and incorporate exemplary models for the nursing pathway
- Employer encouragement of education advancement
- Specialty training model
- Plan for development of nurse educators
Pharmacists

- Support current program and explore new partnership

Objectives:
- Strengthen pre-pharmacy curriculum and advising
- Support current pharmacy education partnership
- Determine potential for more robust, in-state program partnership
- Strategy for linking students doing rotations in Alaska with employment opportunities
Health Professional Loan Repayment and incentive Programs

- Objectives:
  - Increased support-for-service resources
  - Continue SHARP program
Training and Professional Development

Objectives:
- Determine benefits of Trust Training Cooperative learning management system
- Non-academic training for direct service workers and their supervisors
- Alaska CACHE will provide information about continuing education/continuing medical education opportunities
- Preceptor/mentor Clinical Coaching course
Aligning Regulatory Policies that Impact the Health Workforce

- Objectives:
  - Convene industry work group to identify opportunities to improve regulatory policies including those regarding licensure and background checks
  - The Background Check Program will review agency policies and provide recommendations
Engage and Prepare Alaska Youth for Health Careers

- Objectives:
  - Develop Health Career/Technical Education Program of Study framework
  - Pilot Health Program of Study
    - Partners:
      - Three school districts
      - AHECs
      - UA Tech Prep staff
      - UA Allied Health Alliance
Health Workforce Recruiting

- Using existing resources more effectively
- Objectives:
  - Industry/state work group to explore coordinated recruitment and retention efforts
  - Plan for communication regarding recruitment focused on use of DOLWD resources
Objectives:
- Compile and update comprehensive picture of health workforce using current data; identify gaps
- Improve and compile additional data
- Produce compendium of data useful for planning (may be in online format)
Support Requested for...

- Coordinated data collection and analysis efforts
- Legislative requests:
  - Loan repayment/employment incentives
  - Psychiatric residency
  - Alaska Area Health Education Center (AHEC) system
  - Physical therapy programs
  - Nurse practitioner (graduate nursing) programs
