Approved:  _____ Patsy Westcott, Director, DETS	8/25/2020 _____ Date

1. Parties Affected

This policy applies to the Alaska Workforce Investment Board (AWIB) and Division of Employment and Training Services (DETS) staff, and subrecipients of public funds from AWIB/DETS.

2. Background

Accurate timekeeping is a critical administrative requirement and must be categorized according to the type of work performed. The time charging matrix in this policy provides a list of activities that are considered either program or administrative. Administrative activities are generally associated with accounting, budgeting, payroll and procurement, and program activities are generally associated with the work to deliver program services to the public.

3. Policy

Subrecipients of public funds and AWIB/DETS staff are responsible for properly classifying administrative and program activities when working on a project or fund source. They must:

- a) prepare and account for program and administration costs in accordance with this policy;
- b) ensure that budget limitations are not exceeded; and
- c) return funds for unallowed program or administration costs.

Payroll - Subrecipients of funds and AWIB/DETS staff are responsible for monitoring and ensuring accuracy of payroll costs when charging to public funds administered by AWIB/DETS.

Each employee must maintain a time sheet with positive time keeping by recording the actual time worked per funding source, rather than a budgeted estimate or distribution percentage. Employees must record on their time sheets the amount of time spent working per day, per pay period, and by funding source for administration and program activities. Timesheets must be prepared at least monthly and include both the employee and supervisor signatures.

4. Definitions

- a) **Time sheet** is a type of personnel activity report that summarizes hours worked in specified program areas or collocation codes.
- b) **Positive time keeping** is the recording of time spent on administrative or program activities as it relates to each funding source during the work period.
- c) **Program costs** include costs associated with the operation of a subaward from AWIB/DETS that are not administration costs.
- d) **Subaward** is all of the documents included in the contractual agreement between AWIB/DETS and a publicly funded subrecipient under an AWIB/DETS job training program and includes Reimbursable Services Agreements (RSAs) with other state agencies where funds are provided for services to the public.
