

**MEMORANDUM**  
**DEPARTMENT OF LABOR**  
**AND WORKFORCE DEVELOPMENT**

**STATE OF ALASKA**  
Labor Standards & Safety Division

TO: Wage & Hour Staff

DATE: September 30, 2005

PHONE: 465-4855

FROM: Grey Mitchell,  
Director

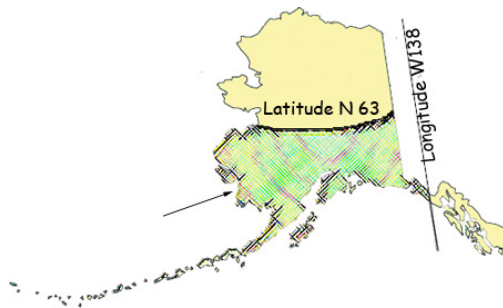

SUBJECT: Clarification regarding Issue 11, PAM  
600, effective September 1, 2005

This memo is designed to clarify questions that have arisen concerning the regions described for the laborer craft at page 6 through 10 of the Laborer's and Mechanic's Minimum Rates of Pay pamphlet, effective September 1, 2005.

The rates are broken into two categories. To avoid confusion, special attention needs to be given to the wording that defines the areas. There are two wage rate categories.

The rates categorized in class code S1201-S1206 apply in one area of Alaska; the area that is south of N63 latitude and west of W138 Longitude. The rates categorized in class code N1201-N1206 apply in two areas of Alaska; the Alaska areas north of N63 latitude and east of W138 longitude. The following graphic representations should assist with clarifying the applicable wage rate categories:

S1201-S1206

N1201-N1206
