CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

- 1) All costs included in this proposal to establish fixed indirect costs rates for FY2018 are allowable in accordance with the requirements of the Federal award(s) to which they apply and OMB Circular 2 CFR 200 Subpart E, "Cost Principles." Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.

ORGANIZATION OVERVIEW

In FY2018, the department consists of the Office of the Commissioner, the Alaska Workforce Investment Board, the Alaska Labor Relations Agency and six divisions: Administrative Services, Workers' Compensation, Labor Standards and Safety, Employment and Training Services, Vocational Rehabilitation and the Alaska Vocational Technical Center. Each division consists of components which are described below. This differs significantly from the structure in FY2016.

Per Administrative Order 275, which was effective June 10, 2015, the Business Partnerships Division was dissolved; the Workforce Investment Board component was organized under the Office of the Commissioner; and the Employment Security Division and remaining functions of the Business Partnerships Division were merged into a single division called the Employment and Training Services Division. FY2016 was a transition year.

FY2016 actual expenditures and FY2018 budgeted expenditures and funding information for each component is provided in Section V of the proposal, and FY2018 organization charts are provided in Appendix A of the proposal.

Office of the Commissioner

The mission of the Office of the Commissioner is to provide support and policy direction to divisions within the department. The Office of the Commissioner is responsible for ensuring coordination and accomplishment of the department's mission and responsibilities. The Commissioner and Deputy Commissioner provide policy direction and management oversight of all department activities. Strong direction from the Office of the Commissioner is critical to the success of the services provided by the department.

Administrative Services Division

The mission of the Administrative Services Division (ASD) is to provide support to the department's programs. The division provides centralized support services, assists in formulation of operating policies, and develops and implements management procedures for the department. The division consists of four components: Management Services, Leasing, Data Processing, and Labor Market Information. This differs from FY2016 as the Human Resources component is consolidated within the Management Services component in FY2018.

Management Services Component

The Management Services component provides for efficient and effective administrative services in support of the department's programs. The component provides budget planning, monitoring and reporting; federal and state accounting and reporting; human resources consultation and recruitment support; procurement, mail and office space management for the department's programs. The Human Resources component is consolidated into the Management Services component effective July 1, 2017.

In FY2017, the Shared Services of Alaska (SSOA), a new division under the Alaska Department of Administration (DOA) was created to provide back-office support of common administrative transactions to allow agencies to focus on core mission responsibilities. The first initiative was on travel reimbursements and two positions from the Management Services component were transferred to SSOA on January 17, 2017 related to this initiative. The second initiative is on accounts payable and three positions from the Management Services component will transfer to SSOA in mid-FY2018 as a part of this initiative. Funding for all five of these positions are charged to ASD from SSOA via a Reimbursable Service Agreement (RSA) beginning in FY2018.

Per Administrative Order 284, which was effective April 25, 2017, the Office of Information Technology (OIT) was established within DOA to work with departments to improve the way the State acquires and manages information technology and to use a coordinated approach that builds on existing structures and successful practices for maximum public benefit. As a part of this initiative, the department's lead Data Processing Manager was transferred in FY2018 to OIT. The position will continue to provide supervision of the department's Data Processing component and IT positions. In FY2018, costs for the Data Processing Manager position will be charged to ASD from OIT via an RSA.

The division consists of five components: Workers' Compensation, Workers' Compensation Appeals Commission, Workers' Compensation Benefits Guaranty Fund, Second Injury Fund and Fishermen's Fund.

Workers' Compensation Component

Revenue to the fund is received from penalties and fines assessed against employers that do not comply with the Act.

Funding Sources:

1203: Workers' Compensation Benefits Guaranty Fund

Second Injury Fund Component

The Second Injury Fund component facilitates reemployment of injured workers. The component ensures that workers' compensation insurance premiums for employees suffering from a condition caused by an earlier injury are equivalent to those of able-bodied workers by limiting the liability of an employer in regards to the amount of compensation, which is paid when a disabled employee is involved in a second injury. The component provides an incentive for employers to hire or retain an injured or disabled worker by helping to maintain insurance premiums for these employees that are equivalent to those of able-bodied workers. Revenue to the fund is from insurers and self-insured employers.

Funding Sources:

Fishermen's Fund Component

The Fishermen's Fund component provides assistance with the medical and health care costs of occupational injuries or illnesses due to commercial fishing activities on shore or in state waters, allowing commercial fishermen to get back to work promptly. The Fishermen's Fund was established in 1951 and provides funds for the care and treatment of Alaska licensed commercial fishermen whose injuries or illnesses are directly connected to operations as fishermen. The Fund is not an insurance program, but an emergency payer of last resort for medical costs. Revenue to the fund comes from commercial fishing licenses.

Collection of wages for employees, who have not been properly paid, is performed by a staff of investigators and technicians in three regional offices statewide, who investigate underpayment, or nonpayment, of wages earned or benefits accrued. Investigative staff also educate employers and employees about their rights and obligations under Alaska labor laws through employer visits, seminars, briefings and other forums.

SECTION IV
COST POLICY

COST POLICY

The State of Alaska maintains a statewide accounting system, the Integrated Resource Information System (IRIS), which identifies all expenditures by department, division, component, program, type of cost and appropriation or funding source. IRIS integrated the statewide procurement and financial, and payroll systems. The combined procurement and financial module (IRIS FIN) was implemented on July 1, 2016. The human resources module (IRIS HRM) replaced the statewide payroll system (AKPAY) effective January 17, 2017. Costs recorded in IRIS are identified by appropriation and major program/program structures.

The state's fiscal year is July 1st through June 30th. The state utilizes a modified accrual basis for accounting and financial statements. Financial statements and reporting are extracted from IRIS into a statewide reporting system (ALDER). ALDER is a data warehouse system and reporting platform for financial and payroll activity.

Accounting Policies

Due to the funding of department programs by both state and federal funding sources, the department's policies and procedures related to the assignment of costs to funding sources follow both state and federal principles, standards and policies. The department incurs and records costs in accordance with State of Alaska fiscal policies and procedures. State policies and procedures have been developed in accordance with generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB). The department's policies and procedures related to the assignment of costs to funding sources follow GAAP principles as recognized by GASB and principles presented in U.S. Office of Management and Budget (OMB) Circular 2 CFR 200 Subpart E, "Cost Principles."

Department procedures and controls are routinely reviewed for compliance with applicable state and federal accounting standards and policies by the State of Alaska, Division of Legislative Audit and by federal program auditors. The Comprehensive Annual Financial Report and the Single Audit for the State of Alaska are audited by the Division of Legislative Audit.

Generally Accepted Accounting Principles

There are three basic concepts incorporated within GAAP that are followed by the department. First, costs are necessary and reasonable for proper performance of a program. Second, costs are charged or allocated to programs in accordance with relative benefits received. A program is only charged for services it utilizes or benefits from and is only charged in relation to benefits derived from the service. Third, costs are accorded consistent treatment as either direct or indirect. A cost is not charged to a program as a direct cost if any other costs incurred for the same purpose in like circumstances have been allocated to a program as indirect costs.

OMB Circular 2 CFR 200 Subpart E

In recognition of OMB Circular 2 CFR 200 Subpart E requirements, department costs are determined and charged to federal awards in accordance with the following general criteria:

- Costs are necessary and reasonable for proper and efficient performance and administration of federal awards;
- Costs are allocable to federal awards only if the goods or services involved are chargeable or assignable to such federal awards in accordance with relative benefits received;
- Costs are authorized or not prohibited under federal, state or local laws or regulations;
- Costs conform to any limitations or exclusions set forth in the circular principles, federal laws, terms and conditions of the federal award, or other governing regulations as to types or amounts of cost items;
- Costs are accorded consistent treatment - a cost has not been assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost;
- Except as otherwise provided for in the circular, costs have been determined in accordance with generally accepted accounting principles;
- Costs have not been included as a cost or used to meet cost sharing or matching requirements of any other federal award in either the current or a prior period, except as specifically provided by federal law or regulation;
- Costs are net of all applicable credits;
- Costs are adequately documented.

Types of Costs

The department, in the performance of its duties and responsibilities, incurs both direct and indirect costs. Direct costs are costs that can be specifically or readily identified with a specific cost objective or program. Indirect costs are costs necessary for the effective, efficient operation of programs that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved. Three methods are used to assign costs: direct cost assignment, cost allocation and application of indirect cost rates.

Direct Cost Assignment

The majority of the department's costs are costs that are specifically or readily identifiable with a specific cost objective or program. All direct costs are supported by auditable documentation.

- ❑ Salaries and wages are charged directly to appropriate programs based on state policies and procedures and applicable OMB Circular 2 CFR 200 Subpart E requirements for the documentation of personnel services.
- ❑ Fringe Benefits are identified specifically to each employee and are assigned to programs in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan
 - Alaska Supplemental Benefits - in lieu of Social Security benefits
 - Legal Trust Plan
 - Workers' Compensation
 - Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
 - Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)
- ❑ Other - all other direct costs are supported by vendor invoices, contracts, reimbursable service agreements and other appropriate documentation.

Cost Allocation

The department allocates costs benefiting more than one program that cannot be readily identified with a specific cost objective or program. Costs are allocated as they occur on appropriate allocation bases. Costs allocated to central administrative and support units and division administrative units are included in the development of indirect cost rates. Examples of allocated costs are leave costs of personnel charged to multiple funding sources, leased space, communications, photocopying, equipment maintenance agreements, risk management insurance, and office supplies. Section X, Allocated Costs, of the proposal provides information on allocated costs and the bases utilized to allocate costs.

Indirect Cost Rate

The department utilizes indirect cost rates prepared in accordance with OMB Circular 2 CFR 200 Subpart E, Appendix VII to recover some statewide costs, the costs of department-wide central administrative support services, and division administrative support costs for the Vocational Rehabilitation and Employment and Training Services divisions. Section VI, Classification of Costs, provides information on costs that are included in these indirect cost rates.

The department-wide fixed indirect cost rate includes OMB Circular 2 CFR 200 Subpart E allowable costs of the Office of the Commissioner, Administrative Services Division, Alaska Vocational Technical Education Center and other administrative support costs benefiting all divisions, programs and funding sources of the department. Section VII, FY2018 Department-Wide Fixed Indirect Cost Rate, provides the rate proposed for FY2018.

The Vocational Rehabilitation Division's fixed indirect cost rate includes division administrative support costs that benefit all programs administered by the Vocational Rehabilitation Division. Section VIII, FY2018 Vocational Rehabilitation Division Fixed Indirect Cost Rate, provides the rate proposed for FY2018.

The Employment and Training Services Division's fixed indirect cost rate includes division administrative support costs that benefit all programs administered by the Employment and Training Services Division. Section IX, FY2018 Employment and Training Services Division Fixed Indirect Cost Rate, provides the rate proposed for FY2018.

This concludes the section of the proposal on the department's Cost Policy.

SECTION VI
CLASSIFICATION OF COSTS

CLASSIFICATION OF COSTS

For the development of indirect cost rates, the department classifies costs as either direct costs, department-wide indirect costs, or division indirect costs. Direct costs are costs that can be specifically or readily identified with a specific cost objective or program. Department-wide indirect costs are costs necessary for the effective, efficient operation of all department programs that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved. Division indirect costs are administrative and support costs of a division that benefit all programs administered by the division that cannot be readily identified to a specific cost objective or program without effort disproportionate to results achieved.

This section includes schedules that support the classification of all department costs. All schedules reconcile to the schedules provided in Section V, Financial Information. A brief description of each schedule is provided in the following text.

Schedule VI-A: Classification of FY2016 Total Actual Costs

Schedule VI-A provides the classification of the department's total actual costs for FY2016. The schedule reconciles to Schedule V-A, Actual Department Expenditures for the Fiscal Year Ended June 30, 2016, in Section V of the proposal. The schedule also identifies additional non-department financial statement costs that have been incurred on behalf of department programs. Schedule information is utilized in the determination of the FY2016 carry-forward adjustments, which are included in the development of FY2018 fixed indirect cost rates. The schedule is formatted as follows:

- Organization Unit - brief title of divisions and components comprising each division;
- Support Schedule - provides a reference to the support schedule that will provide detail information on costs that have been classified as department-wide or division indirect costs;
- Total Costs - total costs of the department that reconciles to Schedule V-A in Section V of the proposal;
- Direct Costs - costs specifically or readily identifiable with a specific program;
- Department-Wide Indirect Costs - indirect costs benefiting all programs of the department;
- Division Indirect Costs - indirect costs benefiting all programs of a division;
- Total Indirect Costs - total costs classified as indirect costs.

Support Schedules for Schedule VI-A

The support schedules provide detail information for each component that has FY2016 actual costs that have been classified as indirect. These schedules are formatted as follows:

- Description - brief description of cost category;
- Total Costs - total component costs that reconciles to Schedule V-A and VI-A;
- Direct Costs - costs that benefit a specific program, do not benefit all programs and/or are OMB Circular 2 CFR 200 Subpart E unallowable as indirect costs;
- Indirect Costs - costs that have been classified as either department-wide or division indirect costs.

Schedule VI A-1: Commissioner's Office

The Commissioner, Deputy Commissioner and their support staff are responsible for ensuring the overall coordination and accomplishment of the department mission and responsibilities. The Commissioner and Deputy Commissioner, in cooperation with division directors, provide policy direction and management oversight of all department activities. Strong direction from the Commissioner's Office is critical to the success of the services provided by the department. Following are Commissioner's Office responsibilities:

- Provide planning and management oversight of all activities and services of the Commissioner's Office;
- Research state and federal program statutes, policies and procedures;
- Provide assistance to division and program management in the development and revision of department program regulations;
- Provide clerical support for the Commissioner's Office, and provide other general department support activities benefiting all programs of the department;
- Provide guidance and policy recommendations, provide public need assessments, and serve as liaison with both state and federal government entities;
- Monitor, research and report all aspects of issues related to the management of the department;
- Assist in the development of policy and coordination of program activities to ensure state and federal program objectives are accomplished;

- ❑ Provide communications support to enhance Alaskan awareness of department programs through development and implementation of a comprehensive communications strategy.

Schedule VI A-2: Management Services

The Management Services component of the Administrative Services Division is responsible for the provision of efficient and effective administrative services in support of all department programs. The component provides budget planning, development, monitoring and reporting; federal and state accounting and reporting; and procurement, mail and office space management for department programs. In FY2016, Management Services did not provide human resources consultation and recruitment support. All costs of the component have been classified as division indirect costs, except for OMB unallowable costs. In FY2016, the component was organized into the following sections:

- ❑ Director's Office - This section is responsible for assisting in the development of department administrative policies and procedures; resolution of any state or federal audit findings; budget planning, preparation, monitoring and reporting; and management oversight of all activities and services of the Administrative Services Division. SECTION VII

FY2018 DEPARTMENT-WIDE FIXED INDIRECT COST RATE

FY2018 DEPARTMENT-WIDE FIXED INDIRECT COST RATE

The department utilizes the OMB Circular 2 CFR 200 Subpart E, Appendix VII simplified method for the development of a single fixed indirect cost rate applicable to all divisions and programs of the department. The rate is determined by dividing the department's total budgeted FY2018 OMB Circular 2 CFR 200 Subpart E allowable indirect cost and FY2016 carry-forward by the department's FY2018 total budgeted direct personal services costs. The rate is calculated by indirect cost source and in total.

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the department less the personal services of positions classified as indirect. Section VI-D, Classification of FY2018 Budgeted Personal Services Costs, provides the support for the classification of personal services as either direct or indirect.

- ❑ Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:
 - Health, dental and life insurance
 - Federal and state unemployment insurance
 - Public Employee Retirement Plan
 - Alaska Supplemental Benefits - in lieu of Social Security benefits
 - Legal Trust Plan
 - Workers' Compensation
 - Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
 - Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

This section includes schedules that support the calculation of the FY2018 department-wide fixed indirect cost rate. A brief description of each schedule is provided in the following text.

Schedule VII-A: Department-Wide FY2018 Fixed Indirect Cost Rate

Schedule VII-A provides the calculation of the department-wide FY2018 fixed indirect cost rate applicable to all divisions and programs of the department. The schedule provides a summary of FY2018 budgeted indirect costs, the FY2016 carry-forward and FY2018 budgeted direct personal services. Rate calculations are provided by indirect cost source and in total.

Indirect costs included in the department-wide fixed indirect cost rate are OMB Circular 2 CFR 200 Subpart E allowable costs that benefit all divisions and programs of the department. Section VI, Classification of Costs, includes schedules that reconcile costs included in the rate and provides detail information on indirect services and costs. Costs have been identified as either department or statewide. Department costs are costs incurred by the department. Statewide costs are costs incurred by other state agencies in support of all department programs.

Schedule VII-B: FY2016 Indirect Cost Rate Carry-Forward

The department utilized a fixed indirect cost rate in FY2016. OMB Circular 2 CFR 200 Subpart E requires that entities utilizing a fixed indirect cost rate determine the difference between the estimated rate, based on budgeted costs and the actual rate for the period based on actual costs. The difference between the rates is to be carried forward as an adjustment to the rate computation of a subsequent period.

Schedule VII-B provides the calculation of the FY2016 indirect cost rate carry-forward. The carry-forward is the difference between potential indirect cost recoveries utilizing the department's fixed FY2016 indirect cost rate based on budgeted costs and the actual or final rate for FY2016 based on actual costs. Carry-forwards are provided by indirect cost source and in total. The carry-forward is included on Schedule VII-A.

This concludes the narrative on this section of the proposal. The schedules are provided on the following pages.

FY2018 VOCATIONAL REHABILITATION DIVISION FIXED INDIRECT COST RATE

The department utilizes the OMB Circular 2 CFR 200 Subpart E, Appendix VII simplified method for the development of a fixed indirect cost rate allocable to all programs administered by the Vocational Rehabilitation Division. The rate consists of a division administrative rate and the department-wide rate. The division rate is determined by dividing the division's total budgeted FY2018 OMB Circular 2 CFR 200 Subpart E allowable administrative indirect costs and FY2016 carry-forward by the division's total budgeted FY2018 direct personal services costs. The department-wide rate is the rate developed in Section VII, FY2018 Department-Wide Fixed Indirect Cost Rate, of the proposal.

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the division less the personal services of positions classified as indirect. Section VI-D, Classification of FY2018 Budgeted Personal Services Costs, provides the support for the classification of division personal services as either direct or indirect.

Schedule VIII-B: FY2016 Vocational Rehabilitation Division Indirect Cost Rate Carry-Forward

The Vocational Rehabilitation Division utilized a fixed indirect cost rate in FY2016. OMB Circular 2 CFR 200 Subpart E requires that entities utilizing a fixed rate determine the difference between the estimated rate, based on budgeted costs and the actual rate for the period based on actual costs. The difference between the rates is to be carried forward as an adjustment to the rate computation of a subsequent period.

Schedule VIII-B provides the calculation of the division's FY2016 indirect cost rate carry-forward. FY2018 EMPLOYMENT AND TRAINING SERVICES DIVISION FIXED INDIRECT COST RATE

The department utilizes the OMB Circular 2 CFR 200 Subpart E, Appendix VII simplified method for the development of a fixed indirect cost rate allocable to all programs administered by the Employment and Training Services Division. The rate consists of a division administrative rate and the department-wide rate. The division rate is determined by dividing the division's total budgeted FY2018 OMB Circular 2 CFR 200 Subpart E allowable administrative indirect costs and FY2016 carry-forward by the division's total budgeted FY2018 direct personal services costs. The department-wide rate is the rate developed in Section VII, FY2018 Department-Wide Fixed Indirect Cost Rate, of the proposal.

Personal Services costs include salaries and wages and associated fringe benefits. Direct personal services costs are the total personal services costs of the division less the personal services of positions classified as indirect. Section VI-D, Classification of FY2018 Budgeted Personal Services Costs, provides the support for the classification of division personal services as either direct or indirect.

- ❑ Fringe Benefits are identified specifically to each employee and are assigned to components in the same ratio as an employee's salary. Fringe benefits include:

 - Terminal leave (a reserve account used to pay terminating employees the unused balance of their leave account)
 - Leave cash-in (a reserve account used to pay employees when they cash in leave in lieu of taking time off)

This section includes schedules that support the calculation of the FY2018 Employment and Training Services Division fixed indirect cost rate. A brief description of each schedule is provided in the following text.

Schedule IX-A: FY2018 Employment and Training Services Division Fixed Indirect Cost Rate

Schedule IX-A provides the calculation of the Employment and Training Services Division's FY2018 fixed indirect cost rate applicable to all programs of the division. The schedule provides a summary of FY2018 budgeted indirect costs, the FY2016 carry-forward and FY2018 budgeted direct personal services. Rate calculations are provided that include only division costs. The schedule also includes the department-wide rate.

Division administrative costs that have been classified as indirect costs are OMB Circular 2 CFR 200 Subpart E allowable costs that benefit all programs administered by the division. Section VI, Classification of Costs, includes schedules that reconcile costs included in the rate and provide detail information on indirect services and costs.

Schedule IX-B: FY2016 Employment and Training Services Division Indirect Cost Rate Carry-Forward

There was no Employment and Training Services Division in FY2016 and no FY2016 Employment and Training Services Division Indirect Cost Rate. Therefore, there is no carry-forward to be calculated and included on Schedule IX-A

This concludes the narrative on this section of the proposal. The schedules are provided on the following pages.

SECTION X
ALLOCATED COSTS

ALLOCATED COSTS

The department allocates costs benefiting more than one program that cannot be readily identified with a specific program. Costs are allocated as they occur based on appropriate allocation bases. Costs allocated to central administrative and support units and division administrative units are included in the development of indirect cost rates. Any allocable cost that cannot be charged to a federal program (because of funding allowability or exhaustion of funds) will be allocated to a state funded appropriation to ensure federal funding is only allocated an equitable share of costs.

Brief descriptions of the types of allocated costs and bases utilized to allocate costs are provided in the following text.

Employee Leave

Costs of leave for organization units with employees that charge to multiple funding sources are pooled and allocated monthly to benefiting programs. A cost pool is established for each organization unit. The basis for allocating each unit's leave costs is the year-to-date (YTD) direct personal services costs of benefiting programs.

Management and Administration

In some cases, personal services (salaries, leave and benefits) of division management and administrative staff benefiting multiple programs are pooled by unit and allocated monthly to benefiting programs. A cost pool is established for each unit and only allocated to benefiting programs of the unit. The basis for allocating each unit's management and administration costs is the YTD personal services costs of benefiting programs.

Support Services and Supplies

Services and supplies that are purchased in support of multiple programs are pooled by unit and allocated monthly to benefiting programs. Examples of support services and supplies that may be allocated include paper, office supplies, books, subscriptions, membership dues, copying, communications and training. The basis for allocating each unit's support services and supplies costs is the YTD personal services costs of benefiting programs.

Alaska Workforce Investment Board

Costs for the Alaska Workforce Investment Board (AWIB) include personal services, board travel, services, and supplies required for oversight functions and staff support of the board. The basis for allocating costs in this pool is the prior year proportionate share of actual total program costs of each of the training programs covered by the AWIB oversight function.

Data Processing

The department's Data Processing (DP) section has multiple teams whose time is accounted for in a variety of ways. Teams are identified by title and function to more easily track them organizationally and in terms of how their costs are charged. Appendix A page 7 provides an organization chart reflecting these teams. These teams have been color coded as noted:

- Yellow - management of the section
- Blue - network services (desktop and connectivity support)
- Purple - network services for job centers only
- White - programming
- Grey - systems and security, research, project development and training
- Green - database, job scheduling and other programming support
- Orange - security administrator
- Brown - direct support to the Disability Determination component

The single "yellow" position provides the overall management of the section. The "blue" network services positions provide desktop, server and software support to all positions in the department. This includes the Unemployment Insurance (UI) call centers and the job centers throughout the state but excludes AVTEC since they provide their own DP network support. Each position in this group charges their time that is specifically for either a UI call center or a job center to those funding sources, with all other time that is not distinct to one of those two functions going to DP Operations (DP OPs). The "yellow" and "blue" DP OPs costs are collected and allocated to all components of the department based on position count.

The single "purple" team position charges only Wagner-Peyser since that position is dedicated to supporting the network services needs of job centers throughout the state.

The "white" programming team works on projects for maintenance or enhancement of specific systems and therefore directly charges its time to the programs supported by the specific systems. The majority of the support does go to mainframe or web based applications that are paid from either UI Administration or Wagner-Peyser funding, but these also include other systems paid from other funding sources.

The "grey" systems security team provides planning, research, security, training, and other similar support to the programmers. These costs are allocated to the projects and systems worked on by the "white" team programmers based on their collective YTD personal services.

The “green” team provides database support and schedules jobs that are run on the mainframe. The department is billed for mainframe usage based on units used identified on the Measure of Incremental Service (MICS) billing. Beginning in FY2016, only UI jobs are on the state mainframe thus MICS charges no longer allocated but charged 100% to UI. Therefore starting in FY2016, the “green” team positions charge only to UI.

The single “orange” team position oversees all facets of data and system security for the department and ensures the secure operation of the in-house computer systems, servers, and network connections. This position is funded by state funding sources.

The single “brown” team position provides direct computer support to and is funded by the Disability Determination (DD) component. DD funds expenditures including salary, benefits, allocations, indirect, and travel to meetings or training incurred for DD specific systems.

Non-personal services charges such as supplies and equipment are pooled for the section and, like leave, are charged based on relative share of YTD personal services for each team.

Labor Standards and Safety, Occupational Safety and Health (OSH)

OSH is comprised of two programs, which are state program OSH enforcement and consultation. Both programs are partially-funded by federal grants, 23G and 21D, respectively. The 23G grant provides 50 percent federal funds and 50 percent state match, and the 21D grant provides 90 percent federal funds and 10 percent state match. Personal services costs of staff benefiting these programs are comprised of three sets of employees: direct program staff and program managers, division management staff, and clerical support staff.

OSH direct program staff and managers comprise of enforcement staff that must charge 23G, and consultation staff that must charge 23G for public site consultations or 21D for private site consultations. Consultation staff time is charged as a relative percentage of public to private consultation visits based on the annual Alaska OSH Evaluation Report. Management staff costs are pooled and distributed based on YTD personal services of the direct program staff, but coded to the administration category under the grant. Clerical support staff direct charge the program when supporting program staff and otherwise charge administration. Clerical pooled program and administrative costs are allocated based on YTD personal services of the program and management staff.

Statewide Cost Allocation Plan (SWCAP) – Core Services

Appendix F provide a copy of the SWCAP. Costs in the SWCAP are common to all state agencies and are detailed and approved annually by the US Department of Health and Human Services (USDHHS) and are listed in Section I and II on the SWCAP Cost Allocation Agreement.

SWCAP Section I – Allocated Costs

Some costs, as detailed in Section I, are in the SWCAP but are not billed to agencies. The department share of those costs is included in the indirect cost pool as a statewide cost.

SWCAP Section II – Billed Costs

Costs as detailed in Section II, are billed costs on the SWCAP agreement. Each cost is allocated to all departments, based on the approval of the SWCAP and they are then further allocated or direct charged within the department in the same way unless otherwise noted for that item. In many cases, after these costs are allocated to the component, they are further allocated through that component's Management and Administration allocation, which is based on relative share of YTD personal services costs.

Department of Administration (DOA) - Leasing Services Center and Public Building Fund

For most leases, the cost of leased office and storage space is paid to the lessors by the Department of Administration (DOA). DOA, in turn, bills the agency occupying the space. In addition, a lease administration fee is charged by DOA based on a combination of relative share of lease costs and lease contract action counts. Some of the department's lease costs are for public facilities owned by another state agency. In those cases, the owning agency (most often DOA, the Department of Transportation & Public Facilities, or the Court System) bills the department for the cost of maintenance, etc. as described and approved through the SWCAP. The department, in turn, allocates these costs to the occupying division or component based on their share of occupied space within each lease. Lease costs for space benefiting multiple programs is usually distributed through the division's Management and Administration allocation.

DOA - Risk Management

The Division of Risk Management bills agencies for their share of property, liability, and public official bond insurance that they hold for all state agencies as well as their costs of providing that service. The overhead and public official bond charges are allocated within the department based on relative share of position count. The charges for property insurance are allocated to the components occupying the property.

DOA - Information Services

DOA has two types of information services costs (1) those that cover infrastructure costs, which are distributed to agencies based on relative share of positions; and (2) usage based costs which are distributed to agencies based on actual usage. Infrastructure costs include telephone and computer enterprise productivity rates (TC and CS EPR) and computer facilities management, which cover things such as network services for transmission of voice and data between state offices, repair and maintenance and other support of radio and telephone equipment, data processing (DP) storage, DP printing, DP programming and the general infrastructure of the state's computer system of which all agencies are a part. Usage based costs include Mainframe Measure of Incremental Service (MICS) costs, telecommunication devices and virtual private network licenses.

DOA - Central Mail Services

DOA processes mail for all departments of state government. Their services cover incoming mail being sorted and distributed to agencies, as well as printing, mailing and processing of warrants (UI, payroll and general warrants) and other outgoing mail. They collect their costs in the following categories: (1) Basic Service, which includes costs for receiving and sorting incoming U.S. and interagency mail in Juneau, and delivering outgoing mail to the post office; (2) Mailstop Service, which includes costs for delivering mail to and picking up mail from each agency mailstop in Juneau; (3) Postage, which includes postage applied to envelopes, postcards and packages; (4) Inserter Costs, which includes costs for inserting centrally-printed mail such as UI payments and informational mail-outs; (5) Other Direct Costs, which includes billing of special warrant stock or mail-out costs directly to the agency that requests the special stock or mailing; (6) All Other Costs, which includes central mail services' personal services and other costs that are not included in the other categories.

The postage, inserter, and other direct costs categories (3, 4, and 5), are billed to the department and are distributed to the department's programs based on actual usage. The basic and mail stop service cost categories (1 and 2) are distributed to the department's programs based on relative share of positions. The all other costs category (6) is distributed to the department's programs based on each program's relative share of all of the other cost categories (1-5).

DOA - Administrative Systems (AKPAY/AKSAS/IRIS/ALDER)

DOA charges all departments for their share of the cost of running the accounting, payroll, data warehouse systems and the other centralized services and assistance they provide. Each department is charged their share based on relative share of position counts. Effective in FY2018, procurement, financial and payroll are all housed in the IRIS system replacing the AKSAS and AKPAY systems. ALDER is still the data warehouse and the reporting system.

DOA - E-Travel

DOA charges all departments for their share of the travel management contract for all agencies. E-travel rates are billed to agencies with each trip booked through the system.

DOA - Division of Personnel

DOA provides oversight of some personnel services including timesheet processing, employee pay issues, labor relations, ADA coordination, and other related services. Each agency is billed for their share based on relative share of positions.

Department of Law - Legal Services

The Department of Law bills agencies for the legal services provided based on actual hours spent and the department direct charges these to the benefiting program that used those services.

Division of Legislative Audit - Audit Services

The Legislative Auditor and staff conduct the post-audit function in the budget cycle in accordance with federal OMB Circular 2 CFR 200 Subpart F Audit Requirements, the Constitution of the State of Alaska, and Title 24 of the Alaska Statutes. All audits performed by the division are external audits; that is, they are performed by an auditor who is independent of the executive head of the government unit or agency being audited. The three major types of audits performed are financial compliance (aka Statewide Audit), performance and special audits. The department is charged for some of the cost of these audits, but some costs are not billed to agencies except in a “memo” to identify those amounts that were not billed. The charges are based on hours spent. Performance and special audits are program specific so the department direct charges the amounts for those audits to the benefiting program. The department allocates the amount charged for the statewide audit based on position count. The “memo” billing for the statewide audit that represents charges that were incurred but not billed, are included in the indirect cost pool as a statewide cost.

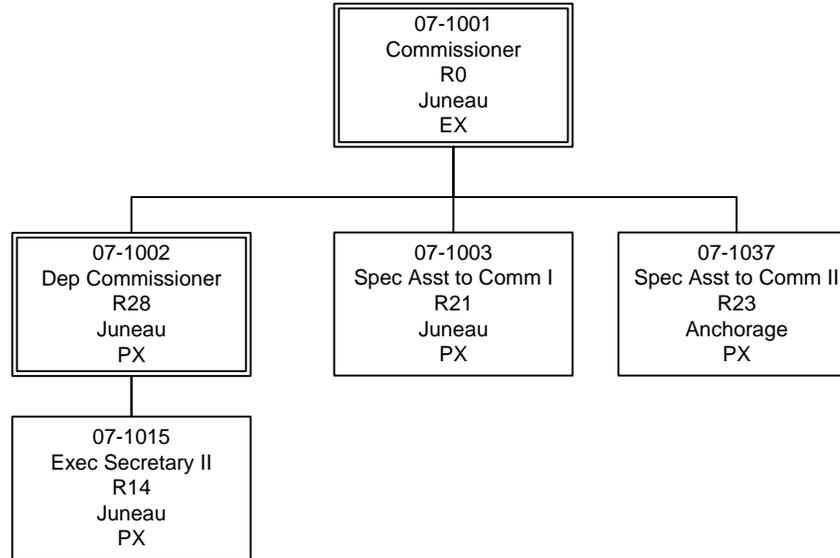

This concludes the section of the proposal on allocated costs.

The Honorable Bill Walker, Governor

Members of the Legislature

Citizens of the State of Alaska

In accordance with Alaska Statute (AS) 37.05.210, it is our pleasure to present the Comprehensive Annual Financial Report (CAFR) of the State of Alaska for the fiscal year ending June 30, 2016. This report has been prepared by the Department of Administration, Division of Finance. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the State. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the State. Statistical and demographic information are included to enable the reader to gain an understanding of the State's financial activities.

INTRODUCTION

Internal Controls

The Department of Administration, Division of Finance, is primarily responsible for the overall operation of the State's central accounting system. The State's system of internal controls over the accounting system has been designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

Some component units operate outside the State's central accounting system. Those component units are responsible for establishing and maintaining their own separate internal control structures.

Audits

The Division of Legislative Audit is the principal auditor of the State's reporting entity. The audit of the CAFR was conducted in accordance with generally accepted auditing standards (GAAS). The independent auditor's report is the first item in the financial section of the CAFR and precedes the Management Discussion and Analysis (MD&A) and basic financial statements. The goal of the

independent audit is to provide reasonable assurance that the financial statements of the State for the fiscal year ended June 30, 2016, are free of material misstatement. The audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the CAFR, assessing the accounting principles used, and evaluating the overall financial statement presentation.

In addition to the annual audit of the State's CAFR, the State is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget's Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, the auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs will be published at a later date under separate cover by the Division of Legislative Audit.

Management's Discussion and Analysis

Governmental Accounting Standards Board Statement No. 34 requires that management provide a narrative introduction, overview, and analysis of the State's financial activities. This transmittal letter is intended to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE STATE OF ALASKA

The State of Alaska was the 49th state admitted into the Union in 1959. The Alaska Constitution was adopted by the Constitutional Convention February 5, 1956, ratified by the people of Alaska April 24, 1956, and became operative with the formal proclamation of statehood January 3, 1959.

There are three branches of government: legislative, executive, and judicial. The legislative power of the State is vested in a legislature consisting of a Senate with a membership of 20 and a House of Representatives with a membership of 40. The executive power of the State is vested in the governor. The judicial power of the State is vested in a supreme court, a superior court, and the courts established by the legislature. The jurisdiction of courts and judicial districts are prescribed by law. The courts constitute a unified judicial system for operation and administration.

The State of Alaska reporting entity reflected in this CAFR, which is described more fully in Note 1 to the basic financial statements, conforms with the requirements of Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. These criteria include financial accountability, fiscal dependency, and legal standing. The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents. The financial statements should allow users to distinguish between the primary government (the State) and its component units, with the emphasis being on the primary government. Consequently, this transmittal letter, the MD&A, and the financial statements focus on the State and its activities. Although information pertaining to the discretely presented component units is provided, their

MEMORANDUM

To: Rachel Paguio, Accountant V
Division of Administrative Services

Development

Date: September 9, 2016
Telephone: 465-3830

From: Kris Curtis *KC*
Legislative Auditor

Subject: Memorandum Billing for
FY 16 Single Audit
Services

The purpose of this memorandum is to provide each agency a breakdown of the costs of Single Audit services provided by the Division of Legislative Audit to that department. This breakdown will allow each agency to maximize federal or other funding participation for these costs. Audit costs are not included in the statewide cost allocation plan; therefore, it is up to each agency to direct bill these costs to their programs or elect to incorporate them into the department's indirect cost plan. No additional payments to the Division of Legislative Audit are required.

Analysis of Department of Labor and Workforce Development Single Audit costs are as follows:

Audit Project	Previously Billed	Informational Billing (Memo)	Total Audit Costs FY 16
Statewide Single Audit - FY 15	\$ 10,196.00	\$ 65,417.00	\$ 75,613.00
Statewide Single Audit - FY 16	0.00	188,517.00	188,517.00
Total Audit Costs	\$ 10,196.00	\$ 253,934.00	\$ 264,130.00

Title 2 CFR 200.425 states that a reasonably proportionate share of the costs of audits required by, and performed in accordance with, the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) are allowable.

The amounts identified as memo billings are audit costs that the departments may seek additional reimbursement as discussed above. These additional FY 16 audit costs must be treated in the same manner as the previously billed audit costs to ensure consistent treatment.

A direct billing approach will require additional information to ensure a proper allocation of costs to all programs that benefit from these services.

Please contact Mark Lundahl (mark.lundahl@akleg.gov or 465-3830) for the additional information.

Memorandum

To: Administrative Service Directors

From: Scot Arehart SA
Director

Date: January 30, 2017

Subject: **Fiscal Year 2016 Memo Billing for Statewide Administrative Systems**

This memo informs you of the amount of AKSAS/IRIS (financial), AKPAY (payroll), and ALDER (data warehouse) chargeback not billed, but allowable and allocable to your department under the fiscal year 2016 Statewide Cost Allocation Plan (SWCAP), which was approved by our federal cost negotiators at the U.S. Department of Health and Human Services. ***You do not have to pay this unbilled amount.***

The amount is being provided to you in "memo billing" form for your department to maximize federal or other funding participation in these allowable costs. Depending on your departmental cost allocation plan, these memo billing expenditures may be used as either direct or indirect costs. The allocation basis approved by the federal cost negotiator in Section II of the fiscal year 2016 SWCAP for these costs was posting line count for IRIS and position count for AKPAY and active users for ALDER. This is the first year of a multi-year transition from legacy administrative systems to IRIS.

For federal or other funding participation, these memo billing expenditures are essentially the same as the IRIS, AKPAY, and ALDER chargeback you actually paid. They are allowable costs that can be allocated across your funding sources. They may be billed, or used as match, or used to replace expenditures that are disallowed by the federal government as a result of the audit process. One caveat of OMB Circular A-87 is that like costs receive like treatment, so the memo billing expenditures must be charged in the same method as the IRIS, AKPAY, and ALDER chargeback you paid for fiscal year 2016.

The following table shows the amount of AKSAS/IRIS, AKPAY, and ALDER chargeback allocable, previously billed, and the memo billing amount for each agency in fiscal year 2016. This is the third year that amortization of ALDER development costs are included in the approved SWCAP and will continue through fiscal year 2021.

If you have questions about this information, please contact me.

The enclosed report is a Summary of the Statewide Cost Allocation Plan for the Fiscal Year 2016. Detailed Plans are on file in the Division of Finance and the Alaska State Library.

SECTION I
INTRODUCTION

INTRODUCTION

The State-wide Cost Allocation Plan (SWCAP) for indirect services provided by central services agencies of the State of Alaska for fiscal year 2016 is based on actual data incurred during the fiscal year ended June 30, 2014 (FY 2014). The Plan was prepared by MAXIMUS, Inc. at the request of the Department of Administration, State of Alaska.

The U.S. Office of Management and Budget issued OMB Circular A-87 (2 CFR Part 225), which defines allowable expenditures for Federal grants. The Circular establishes procedures for recovering both direct and indirect costs of programs. The Circular requires that a state wishing to claim indirect costs as charges against Federal grants, prepare an annual SWCAP and submit the Plan for approval to a designated Federal department for review and approval.

This SWCAP, based on actual data incurred during the fiscal year ended June 30, 2014, should be fixed and used on all indirect cost proposals for Federal programs during the State's fiscal year ending June 30, 2016 (FY 2016).

The SWCAP is formatted as follows:

- Certificate of Cost Allocation Plan** - a certification by an authorized official that the SWCAP has been prepared in accordance with applicable policies and procedures of OMB Circular A-87 (2 CFR Part 225).
- Organization Chart** - a current State of Alaska organization chart.
- Cost Allocation Agreement** – agreement signed by federal cognizant agency (DHSS) and the State of Alaska.
- FY 2016 Fixed Costs** - schedule which summarizes fixed costs for each State agency.

SECTION II

CERTIFICATE OF COST ALLOCATION PLAN

**STATE OF ALASKA
STATEWIDE COST ALLOCATION PLAN
CERTIFICATE OF COST ALLOCATION PLAN**

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in the FY 2016 Statewide Cost Allocation Plan to establish cost allocations or billings for the fiscal year beginning July 1, 2015 and ending June 30, 2016 are allowable in accordance with the requirements of OMB Circular A-87 (2 CFR Part 225), "*Cost Principles for State and Local Governments*," and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

FUNCTIONS OF STATE DEPARTMENTS

OFFICE OF THE GOVERNOR

The Governor is the Chief Executive of the State. The Office of the Governor has the overall responsibility for coordinating the activities of state agencies to ensure that all programs are consistent with the governor's policy and objectives.

ADMINISTRATION

The Department of Administration centralizes services to provide more efficient, cost-effective support to state agencies and Alaskans. Services to state agencies include: Labor Relations and Personnel, Finance (payroll, accounting, and disbursements), General Services (purchasing, surplus property, mail, managing public buildings, and leases), Risk Management, Enterprise Technology Services (telecommunications and computer services), and Retirement and Benefits (public employers, public employees and retirees).

The department also provides services to the public through the: Division of Motor Vehicles, Division of Retirement and Benefits, Office of Public Advocacy, Public Defender Agency, Alaska Public Offices Commission, Alaska Oil and Gas Conservation Commission, Alaska Public Broadcasting Commission, Office of Administrative Hearings, and Violent Crimes Compensation Board.

COMMERCE, COMMUNITY AND ECONOMIC DEVELOPMENT

The Department of Commerce, Community and Economic Development promotes economic development, strengthens communities and provides consumer protections. To accomplish these, the department implements programs for sustainable business growth and reduced energy costs, regulates and enforces to provide a stable business climate, and provides technical and financial assistance and volunteerism outreach opportunities for communities.

The department consists of core agencies including: Division of Banking and Securities, Division of Corporations, Business and Professional Licensing, Division of Community and Regional Affairs, Division of Insurance, and the Division of Economic Development. Various corporate agencies are also part of the department, including: Alaska Industrial Development and Export Authority, Alaska Energy Authority, Alaska Railroad Corporation, Alaska Gasline Development Corporation, Alaska Seafood Marketing Institute, Regulatory Commission of Alaska, Alcoholic Beverage Control Board and the Serve Alaska Commission.

The Department of Corrections is responsible for public safety through the incarceration and supervision of offenders. The department operates 12 correctional facilities and jails that provide secure confinement and appropriate rehabilitation programs for felons and misdemeanants; community residential centers; supervision and case management of probationers and parolees in the community; and oversight of 15 small community jails. Also

included in the department is the Alaska Board of Parole, a quasi-judicial board that makes all parole related decisions.

EDUCATION AND EARLY DEVELOPMENT

The Department of Education and Early Development is responsible for Alaska's system of public education. The State Board of Education and Early Development is the executive board of the department. The board develops educational policy, promulgates regulations governing education, appoints the commissioner of Education and Early Development with the Governor's approval, and is the channel of communication between state government and the public for educational matters. Education policies are determined by the board and administered by the commissioner through department divisions. Programs administered include: Public school funding, teacher certification, and student assessment. The department also operates Mt. Edgecumbe High School, the state's secondary boarding school program. The department administers the state libraries, archives, museum services, provides grants to the arts community. Other state entities associated with the department for administrative purposes are the Alaska Commission on Postsecondary Education and the Alaska Student Loan Corporation.

ENVIRONMENTAL CONSERVATION

The Department of Environmental Conservation is the state's regulatory agency responsible for protection of the environment and protection of citizens from unsafe sanitary practices.

To accomplish these results, the department develops and enforces standards for protection of the environment and the abatement of pollution to air, land and water; and controls sanitary practices related to food, drinking water and solid waste. Services to communities include financial and technical assistance for upgrading water, sewage and solid waste, assistance meeting health-based standards for air quality, and positioning oil spill response equipment for preparedness and cleanup of oil and hazardous substance releases.

Through partnerships with Alaska citizens, businesses, and communities, the department works to safely manage and reduce pollution and hazards to the environment and human health.

FISH AND GAME

The Department of Fish and Game's mission is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and well-being of the people of the state, consistent with the sustained yield principle in the Alaska Constitution. The commissioner and the department conduct management and research functions necessary to support this mission.

The Boards of Fisheries and Game are responsible for adopting regulations to conserve and develop the state's fish and wildlife resources. The Commercial Fisheries Entry Commission is a quasi-judicial agency that promotes resource conservation and

sustained yield management by regulating entry into Alaska's commercial fisheries. The department also includes the Exxon Valdez Oil Spill Trustee Council, which oversees restoration of the injured ecosystem through the use of the \$900 million civil settlement.

HEALTH AND SOCIAL SERVICES

The Department of Health and Social Services' mission is to promote and protect the health and well-being of Alaskans. The department and its eight divisions focus on three priority areas: Health and wellness across the lifespan; health care access, delivery and value; and safe and responsible individuals, families and communities. Within these three priority areas, the department's seven core services are to: Protect and promote the health of Alaskans; provide quality of life in a safe living environment for Alaskans; manage health care coverage for Alaskans in need; facilitate access to affordable health care for Alaskans; strengthen Alaska families; protect vulnerable Alaskans; and to promote personal responsibility and accountable decisions by Alaskans. Each of its eight divisions shares a department-wide service philosophy of delivering the right care to the right person at the right time for the right price.

The department's primary functions include: Administering Medicaid services for low-income and disabled Alaskans through the Division of Health Care Services; operation of the Alaska Veterans and Pioneers Homes; support services for seniors, providing support to disabled Alaskans and vulnerable adults through the Division of Senior and Disabilities Services; providing child protection and family preservation programs through the Office of Children's Services; operating youth detention facilities, including helping offenders transition back into their communities, through the Division of Juvenile Justice; and offering basic financial assistance, with an emphasis on self-sufficiency, to Alaskans in need through the Division of Public Assistance.

The department is committed to prevention of illness, health promotion and protection, including emergency preparedness, through the Division of Public Health; and the Division of Behavioral Health oversees community-based mental health and substance abuse services across the continuum of care (prevention, early intervention, treatment and recovery programs), including operation of the Alaska Psychiatric Institute.

LABOR AND WORKFORCE DEVELOPMENT

The Department of Labor and Workforce Development is responsible for advancing opportunities for employment and ensuring that employers provide safe and legal working conditions. The department offers employment services, unemployment insurance, adult basic education, job training, workers' compensation adjudication and rehabilitation services, the Fishermen's and Second Injury Funds, and vocational rehabilitation for people with disabilities. In addition, the department enforces laws and regulations assuring occupational safety and health, performs mechanical inspections, and administers state wage and hour laws; serves as the labor relations agency for public employment in the state; and collects, analyzes, and releases labor market and population statistics. Also included in the department are the Alaska Workforce Investment Board, the Workers' Compensation Appeals Commission and the Alaska Vocational Technical Center.

LAW

The Department of Law is responsible for ensuring safe communities in part through the prosecution and conviction of criminal offenders. The department files both misdemeanor and felony charges; serves as legal advisor to grand juries; and represents the state in all phases of criminal trial and appellate proceedings. It provides legal assistance to state and local law enforcement, the Department of Corrections and the Division of Juvenile Justice. It also works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Such actions include protecting Alaska's children and youth by handling child abuse, neglect, and delinquency cases expeditiously; resolving questions of state versus federal control of natural resources; ensuring that the state receives its correct share of oil and gas taxes and royalties; collecting money owed to the state by businesses and individuals for child support, fines, and other unpaid obligations; and defending the state against claims for personal injury and other damages.

MILITARY AND VETERANS AFFAIRS

The mission of the Department of Military and Veterans' Affairs is to provide military forces to accomplish military missions in the state and around the world; provide homeland security and defense; emergency response; veteran's services; and youth military style training and education. The commissioner serves as the Adjutant General of the State of Alaska and has command over the approximately 4,000 Army and Air guardsmen of the Alaska National Guard. The commissioner also oversees the Division of Homeland Security and Emergency Management, Office of Veterans Affairs, Alaska Military Youth Academy, Alaska Aerospace Corporation, State Defense Force, Naval Militia and the second largest Facilities Maintenance operation in state government. Each agency in the department serves the mission of the department as follows:

Alaska Air Guard - recruit, train, equip, and maintain America's finest airmen to support State of Alaska emergency operations and daily homeland security and defense missions, provide rescue forces on continual alert, protect life and property for the citizens of Alaska, and support worldwide contingency operations.

Alaska Army Guard - organize, man, equip, and train quality units to conduct tactical operations and stability support operations in support of State of Alaska emergency missions and U.S. Army requirements.

Facilities Maintenance/Management - to provide, maintain and operate safe, secure, high quality facilities, training areas and ranges for the Alaska Army National Guard on a cost effective basis which meet or exceed unit mission requirements, environmental compliance standards and energy efficiencies.

Dear Mr. Arehart:

The negotiation agreement approving the central services cost allocation plan for the fiscal year ending 06/30/16 is enclosed. This agreement reflects an understanding reached between your organization and a member of my staff concerning the central service costs that may be included as indirect costs in your departments and agencies that have Federal grants and/or contracts.

Please have the agreement signed by an authorized representative of your organization and return within ten business days of receipt. The signed agreement can be sent to me by email or fax, while retaining the copy for your files. Only when the signed agreement is returned, will we then reproduce and distribute the agreement to the appropriate awarding organizations of the Federal Government for their use.

Our review included the University of Alaska (UA) share of the interest costs incurred by the State to service the Higher Education Facility General Obligation Bonds. Based on the review, it was determined the UA share of the interest costs was \$7,082,861 for the fiscal year ending June 30, 2014. However, during a prior year proposal review, the UA representatives informed us that an adjustment is made to the approved interest amount in order to identify the actual interest cost for a given fiscal year. Since UA includes the interest cost in the facilities and administrative rate proposal, we recommend the Office of Naval Research (cognizant Federal agency) review the adjustment for allowability.

During our review of the central services cost allocation plan, we identified excess fund balances for several service areas in the Information Services Fund - Computer System (Batch, ADABAS, CICS, Sheet Print, and Workplace Alaska). Since the State indicated that steps have been taken to eliminate the excess fund balance, we did not request a refund at this time. However, the State agreed if the excess fund balances are not eliminated by the fiscal year ending June 30, 2015, a refund will be made to the Federal government for its share of any excess at that time.

Please indicate your concurrence with this condition by counter-signing this letter below and returning it to me.

A cost allocation plan proposal together with supporting information are required to substantiate your claim for central service costs under grants and contracts awarded by the Federal government. Thus, your next proposal based on actual costs for the fiscal year ending 06/30/15, is due in our office by 12/31/15. Please submit your next proposal electronically via email to CAS-SF@psc.hhs.gov.

Sincerely,

APPENDIX G
FY2016 TAX COLLECTION ACTIVITY

**STATE EMPLOYMENT SECURITY AGENCY
TAX COLLECTION ACTIVITY
DESCRIPTION OF UNIT OPERATION**

The Employment Security Tax Unit is responsible for the collection of taxes from Alaska employers for Unemployment Insurance (UI) Tax and two state programs: the State Employment and Training Program (STEP) and the Alaska Technical and Vocational Education Program (TVEP). The Tax Unit incurs costs directly related to UI and costs that benefit both UI and state programs. Costs directly related to UI are recorded directly into a cost center established for UI on the state accounting system (IRIS). Costs benefiting both UI and state programs are allocated or split between UI and state programs on the ratio established by U.S. Department of Labor, currently 81% to UI and 19% to state programs.

Collection activities and processes of the Tax Unit were reviewed by the U.S. Department of Labor, Division of Cost Determination, soon after STEP began. After the review, a shared cost agreement was reached between the state and federal partners that the state portion of shared costs would be 19%. This agreement has been in place since 1994. On January 25, 2002, the Alaska Department of Labor and Workforce Development requested that the agreement to split common tax collection costs 81% UI and 19% state be reconfirmed. The U.S. Department of Labor, Employment and Training Administration, confirmed that the agreement is still valid and in effect.

The total Tax Unit cost benefitting both UI and state programs for FY2016 was \$3,656,054. Of that amount, \$2,961,404 or 81% was paid with UI Administrative funds, \$347,325 or 9.5% was paid with STEP funds and \$347,325 or 9.5% was paid with TVEP funds.

This is to certify that we collect other taxes that were used to fund non-UI programs. As a result of the execution of our approved shared tax cost agreement, \$694,650 was paid from non-federal sources for fiscal year ending June 30, 2016.

***FY2016 UNEMPLOYMENT INSURANCE PENALTIES AND INTEREST
ACTIVITY***

**STATE UNEMPLOYMENT INSURANCE AGENCY
PENALTIES AND INTEREST ACTIVITY
DESCRIPTION OF UNIT OPERATION**

The Unemployment Insurance Benefit Payment Control Unit (BPC) is responsible for auditing Unemployment Insurance (UI) claims, detecting fraud, declaring benefit overpayments, collecting overpayments and assessing penalties on fraudulent UI claims. The State of Alaska assesses administrative penalties, but not interest, when benefit overpayments from fraud occurs (AS 23.20.390).

In order to isolate the costs of assessing and collecting penalties, the department first had to identify the costs associated with fraud. The department looked at the last two state fiscal years of cases (FY2015 and FY2016). The total cases for FY2015 and FY2016 was 16,517 with 2,799 (16.95%) attributable to fraud cases.

To isolate further the costs of assessing and collecting penalties, the department analyzed the way investigators manage their cases to determine the methodology used in allocating these costs. Penalties are assessed when specific data elements are entered in the Benefit Audit, Reporting and Tracking System (BARTS). The process of penalty assessment and generating collection letters is automated with the interface between the BARTS and UI database. A daily batch run identifies and calculates the penalties for each individual claim and rolls the data in the UI database. Investigators use 31 screens when they manage fraud cases and 6 of those screens (19.35%) have data elements that must be entered in order for penalties to be assessed.

The total cost incurred by the Benefit Payment Control (BPC) Unit in FY2016 was \$1,749,087 with \$296,403 attributable to fraud. Out of the \$296,403 attributable to fraud, 19.35% or \$57,368 were the costs associated with penalties.

In accordance with state and federal law, 30% of the fraud penalties collected are deposited into the UI Trust Fund and the remaining 70% collected are transferred to the state general fund. Therefore, from \$57,368 costs associated with penalties in FY2016, \$40,158 or 70% was attributable to the state general fund.

Penalty Costs Attributable to Non-UCF	\$ 40,158		

This is to certify that I have reviewed the penalties and interest activities submitted herewith and to the best of my knowledge and belief:

1. All costs of the penalties and interest collected were used only for the benefit of the Unemployment Insurance program.
2. As a result of the execution of the cost allocation plan for fiscal year ending June 30, 2016, \$40,158 was contributed to the UI appropriation from non-federal sources in the form of UI lease costs paid for with state general funds.

I declare that the foregoing is true and correct.

APPENDIX I
INCOME ELIGIBILITY VERIFICATION SYSTEM

INCOME ELIGIBILITY VERIFICATION SYSTEM

As the State Employment Security Agency for the State of Alaska, the Alaska Department of Labor and Workforce Development operates the State's Income Eligibility Verification System (IEVS). The department's Unemployment Insurance (UI) program operates the system in accordance with applicable sections of the Social Security Act (SSA). UI operates the system and allows authorized agencies access to wage and unemployment compensation data maintained on the system. UI is also authorized to acquire and maintain any information from state agencies identified in Section 1113 of the SSA.

- ❑ The following agencies are utilizing Alaska's Income and Eligibility Verification System pursuant to Sec. 1137 (42.U.S.C. 1320b-7):
 - Alaska Department of Health and Social Services (DHSS) - Electronic data access is provided "online" to DHSS. Benefiting DHSS administered programs include the Alaska Temporary Assistance Program, Medicaid, Adult Public Assistance, Chronic and Acute Medical Assistance, General Relief Assistance, Supplemental Nutrition Assistance Program (a.k.a. Food Stamp Program), and Energy Assistance Program.
 - Alaska Department of Revenue (DOR) - Electronic data access is provided "online" to DOR. The Child Support Enforcement Division of DOR utilizes the system.
 - Central Council of Tlingit and Haida Indian Tribes of Alaska (CCTHITA) - Electronic data access is provided via the provision of data sets automatically extracted and available to CCTHITA through connections with the Alaska Department of Administration's mainframe. CCTHITA administers Temporary Assistance to Needy Families (TANF) programs in southeast Alaska native communities in cooperation with U.S. Department of Health and Human Services (U.S. DHHS).
 - Association of Village Council Presidents (AVCP) - Electronic data access is provided via the provision of data sets automatically extracted and available to AVCP through connections with the Alaska Department of Administration's mainframe. AVCP administers TANF programs in Bethel region native communities in cooperation with U.S. DHHS.
 - Other State Agencies - Any other state agencies authorized in SSA to receive data maintained on IEVS.
 - Social Security Administration (SSA) - Electronic data access is provided "online" to a limited number of SSA employees located within Alaska's borders.
-

- ❑ Copies of written agreements with requesting departments and agencies utilizing the system are available upon request.
- ❑ The department does not recover any costs from requesting agencies for costs associated with the data acquisition, data entry, or maintenance and operation of IEVS. IEVS is maintained on the Department of Administration's (DOA) mainframe computer system. Data processing costs associated with online access and mainframe acquisition of data sets is billed directly to agencies by DOA.

The department has virtually eliminated costs for provision of IEVS data to authorized agencies by allowing agencies either online access through DOA or by the provision of data sets available on the DOA mainframe computer system. Agencies with online access are linked to IEVS through authorized workstations. Agencies without online access may acquire data through connection with DOA's mainframe. A mainframe computer program automatically extracts data records from the department's database and places data sets in an accessible file automatically and on a scheduled routine. In this manner, agencies utilizing IEVS recover the data and incur all costs associated with acquisition of the data from IEVS.

- ❑ The only agency that the department has a separate agreement with for tape matching services is the Alaska Department of Revenue (DOR), Tax Division. States are required to share wage and unemployment compensation records with the U.S. Internal Revenue Service (IRS) for the purposes of the Federal Unemployment Tax Act. An agreement is not required. IRS issues a summons for records.

The department's agreement with DOR is to supply wage data for the purpose of verifying the Alaska payroll reported on the apportionment schedule of the Alaska Corporation Net Income Tax Returns required by Alaska Statute 43.20. Data sharing is authorized by AS 23.20.110(a).

- ❑ As previously stated, the department has recovered no funds from other agencies related to IEVS.
