1. Parties Affected

This policy applies to Alaska Workforce Investment Board (AWIB) and Division of Employment and Training Services (DETS) staff, and subrecipients receiving federal funds from AWIB or DETS.

2. Background

Federal guidelines [20 CFR 683.300 Reporting Requirements](#) dictates that subrecipients of federal funds must report award-related financial activities on the accrual basis of accounting and be cumulative by fiscal year of appropriation. This is supported by [Training and Employment Guidance Letter No. 28-10](#), which requires all subrecipients receiving federal funds to report all financial transactions on a full accrual basis.

Accrual based reporting occurs when transactions are recognized in the accounting period in which they occur, i.e. revenue is recognized when earned and expenses are recognized when incurred.

3. Policy

Subrecipients of federal funds are required to provide timely, accurate, and complete disclosure of the financial activities of federal subawards using accrual based accounting methodology. Procedures to account for inception-to-date award-related activities including accrued obligations, accrued expenditures, credits, and refunds and rebates related to award activities are required.

Examples of accruals include, but are not limited to:

- costs of goods and services which have been received but not yet paid;
- salaries and benefits earned by employees for work performed, whether or not the payroll checks have been issued; and
- costs of training received by enrolled participants.

If a subrecipient's accounting records are not normally kept on the accrual basis of accounting, the subrecipient must develop and submit accrual information through an analysis of the documentation on hand.

4. Responsibilities

AWIB and DETS are responsible for timely and accurate expenditure reporting of Federal awards by ensuring subrecipients' Quarterly and Final Financial Reports contain accrual information and are received, approved, and transmitted to the Alaska Department of Labor and Workforce Development, Administrative Services Division.

5. Definitions

- a) **Accrued Expenditure** means a charge incurred during the reporting period requiring the provision of (1) goods and other tangible property received, (2) services performed by employees, contractors, subrecipients and sub-contractors, and other payees, or (3) other amounts becoming owed under the programs for which no current services or performance is required, such as annuities, insurance claims, or other benefit payments. Typically, an Accrued Expenditure will be for a good or service that has been received during the reporting period which the subrecipient has not yet paid at the end of the reporting period.
- b) **Accrued Obligation** means a formal commitment of funds by a subrecipient resulting in future payments or expenditures and may include such items as subgrant agreements, purchase orders, or cash disbursements. Obligations do not include such actions as projected staff time, future or projected rent payments, future or projected training, or items that are budgeted during the period of the grant award.
- c) **Credit** means a reduction in the amount paid to a vendor or other party or that is returned to the payer.

- d) **Rebates** are reductions in the amounts expended for goods or services that are repaid by the vendor as an incentive for purchasing the goods or services.
- e) **Refunds** are the return of the amounts expended for goods or services in exchange for the return of those goods or services to the vendor.
- f) **Subaward** is all of the documents included in the contractual agreement between AWIB/DETS and the subrecipient and includes Reimbursable Services Agreements (RSAs) with other state agencies.
- g) **Subrecipient** is the organization specified in a subaward or RSA.
