1. Parties Affected:

This policy applies to subrecipients of public funds from the Division of Employment and Training Services (DETS) and to DETS staff.

2. Background:

The Senior Community Service Employment Program (SCSEP), authorized by Title V of the Older Americans Act, is operated in Alaska as Mature Alaskans Seeking Skills Training (MASST). SCSEP is the only federally sponsored employment and training program targeted specifically to low-income, older individuals who want to enter or re-enter the workforce. The dual goals of the program are to promote useful opportunities in community service activities and to transition SCSEP participants into unsubsidized employment, where appropriate, to achieve economic self-sufficiency.

3. Policy:

Individuals administering SCSEP services shall determine program eligibility for older workers based on the following eligibility criteria: participants must be at least 55 years old, unemployed, not work ready, and have a family income of no more than 125 percent of the federal poverty level.

Enrollment priority is given to veterans and qualified spouses, then to individuals who are over 65, have a disability, have low literacy skills or limited English proficiency, reside in a rural area, are homeless or at risk of homelessness, have low employment prospects, formerly incarcerated within the last five years prior to enrollment, or have failed to find employment after using services through the American Job Center Network.
