On July 22, 2014, President Obama signed the Workforce Innovation and Opportunity Act.

This is the first legislative reform that modernizes the public workforce system in more than 15 years.

It reaffirms the role of the public workforce system, and brings together and enhances several key employment, education, and training programs.
WIOA OVERVIEW

WIOA seeks to deliver a broad array of integrated services to individuals seeking jobs and skills training, as well as employers seeking skilled workers by improving the workforce system, more closely aligning with regional economies.

Customers must have access to a seamless system of high-quality services through coordination of programs, services and governance structures.

Closer ties among key workforce partners—
- business leaders,
- workforce boards,
- labor unions,
- community colleges,
- non-profit organizations,
- youth-serving organizations,
- State and local officials

—for a more job-driven approach to training and skills development.
WHY WIOA?

- By 2022 the U.S. will fall short of 11 million workers with postsecondary education, that include 6.8 million workers with bachelor's degrees, and 4.3 million workers with a postsecondary vocational certificate, some college credits or an associate's degree.

- Fifty-two percent of adults (16-65) lack the literacy skills necessary to identify, interpret, or evaluate one or more pieces of information; a critical requirement for success in postsecondary education and work.

- Individuals with disabilities have the highest rate of unemployment of any group, and more than two-thirds do not participate in the workforce.
WIOA OVERVIEW

- Referrals to medical or other support service

MANDATORY PROGRAM FUNCTIONS
INTAKE AND THE OBJECTIVE ASSESSMENT

Intake should go beyond simply collecting data- take this opportunity to learn about the youth and develop a rapport:

- Determine Eligibility
- Collect documents/IDs that prove eligibility
- Orient to program and expectations
- Ask open ended questions
- Enter youth information as draft in ICM
- Enroll in ICM once youth commits to participation

Participants must be provided an objective assessment of their academic levels, skill levels, and service needs for the purpose of identifying appropriate services and career pathways for them. The Assessment should address the following areas:

- Work Experience
- Occupational Skills
- Developmental Needs
- Support Service
- Academic Skills
- Work Experience

All necessary intake forms and basic objective assessment are available on the Youth resource site.
MANDATORY PROGRAM FUNCTIONS
INDIVIDUAL SERVICE STRATEGY

Develop an individual service strategies (ISS) for each participant that is directly linked to one or more of the indicators of performance, and identifies a career pathway which includes education and employment goals.

**Services**
All allowable WIOA Youth services are located within the ICM system, selection of specific services forms the ISS. All services must have a start and end date and selected based on the participants objective assessment. Services must link to one or more performance measures.

**Goals**
Represents the overall desired outcome of the services delivered and must include educational and employment goals. Goal descriptions should support identified career pathway. Target goals that can be attained during service delivery.

**Credentials**
Earned credentials are vital to performance and should be linked to one or more of the goals identified. Programs should make available training that yields academic and occupational credentials. Unearned credentials lowers performance while earned credentials improve performance.

**Career Pathway**
Consists of and alignment of training, employment, educational, and support services to prepare youth to exit into planned career track. The Career Pathways should be identified in an ‘advancement plan’ case note that will become a part of the ISS.
Career pathways programs provide post-secondary education and training that is organized as a series of manageable steps leading to successively higher credentials and employment opportunities in growing occupations. Each step is designed to prepare individuals for the next level of employment and education and provide a credential with labor market value. To effectively engage, retain, and facilitate learning of a diverse population, programs integrate promising instructional strategies, supports, and employer connections.

Successful implementation of many of the approaches for career pathways and sector strategies is called for within WIOA. These require robust relationships across programs and with businesses, economic development, education and training institutions, including community colleges and career and technical education, local entities, and supportive services agencies.

AK DOL has sector strategies in place with comprehensive workforce development plans. They include Healthcare, Construction, Transportation, Oil and Gas and Maritime. These can be located on the AWIB site at http://labor.alaska.gov/awib/ppi.htm

Identifying a Career Pathway in the Individual Service Strategy (ISS) is REQUIRED by WIOA. Can be entered on the ISS through a case note (advancement plan type) and printed on the ISS.
Case management refers to the overall oversight of a participant case, to include:

- Checking accuracy information in ICM
- Timely data entry
- Progression towards goals
- Documentation of Service details
- Documenting service costs
- Documenting outcomes and exit information
- Service an resource planning
- Providing detailed case notes of participant program progression

Case Notes
Refers to electronic statements entered into the case management system, and identifies the following:

- Date
- Type of Contact
- Description of the event
- Recounting the interaction
- How interaction relates to the ISS – progress, career pathway, etc.
- Issues
- Resolution or next steps
Case notes should be Clear, Relevant, and Useful, and include information that:

- Provides a clear picture of the participants journey and progress
- Supports Documentation for delivery of a service
- Serves as supporting documentation for some data validation elements
- Identifies career pathway
- Assists with coordination of services for co-enrolled participants, and referrals
- Is not biased, negative, or prejudicial

Example 1:
“Talked with Joe today. He said things are going well”

Example 2:
“7/1/2015 made contact with Joe, he is currently unemployed after losing his job post exit. He is looking for work and still living with a friend. I scheduled a meeting for him for 7/3/15, to discuss some of his job search options and a referral to the adult program for more training”
An exit should occur when:

- A participant has not received a service funded by the program or a partner program for 90 consecutive calendar days,
- has no gaps in service; and
- is not scheduled for future services.

Exit participants when all services and goals are completed
- Reasonably confident participant ready for exit
- If youth needs additional services the 90 day period provides a window to better ensure success because no official exit has been recorded.

Exit start date is equal to the end date of the last program or partner service

WIOA VOCATIONAL REHABILITATION

Mission - To assist individuals with disabilities obtain and maintain employment.

- Intended to assist individuals with disabilities to successfully achieve LONG-TERM, COMPETITIVE INTEGRATED EMPLOYMENT/SELF-EMPLOYMENT based on their abilities, strengths, interests, and capabilities through an “informed choice” model.

- Informed choice is the process by which individuals participating in the VR program make meaningful decisions about their vocational goals.
In order to be eligible for VR services:

- An individual must have a physical or mental impairment
- That impairment must result in a substantial impediment to employment
- The individual must require VR services to prepare for, secure, retain, or regain employment consistent with the individual’s strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice.
If an individual is on SSI or SSDI:

- It is presumed that because an individual is on Social Security, they are an individual with a physical or mental disability, for which that disability creates a substantial impediment to employment.

- The third criteria for eligibility must still be determined by a VR counselor. The individual must be able to benefit from services in terms of an employment outcome.
  - If, due to the severity of the disability, the VR Counselor cannot presume the individual will benefit in terms of an employment outcome, the individual will be asked to participate in an assessment called a Trial Work Experience (TWE). The TWE will explore the individual’s abilities, capabilities and capacity to perform in a real-life work setting. TWEs typically consist of 3 experiences lasting no more than 3 weeks each. The process may last for up to 12 months.
