Dear Ms. Reimer,

I am pleased to notify you that the Mat-Su Health Services Inc. has been approved for the Alaska Occupational Safety and Health (AKOSH) Safety and Health Achievement Recognition Program (SHARP). Since October 2013, Mat-Su Health Services Inc. worked with the Consultation and Training team to improve occupational safety and health conditions for your employees.

AKOSH consultants conducted a comprehensive safety and health evaluation in December 2020 and January 2021 which verified the site meets the SHARP eligibility criteria. You have exhibited commitment and hard work toward this goal, and the recommendations our consultants made were received and implemented for program enhancement. We congratulate you for the positive attitude related to safety and health exhibited by you and your employees. You are a role model and I encourage you to take the opportunity to share what you have learned with other employers to assist them in growing their safety culture.

Participation in SHARP does not diminish any of the rights and responsibilities provided to you and your employees by the Occupational Safety and Health Act of 1970. Although the name of your site will be removed from the scheduled inspection list for two years from the date of this letter, employee complaints, fatalities or catastrophes, and significant chemical leaks or spills at your site will still result in normal AKOSH Enforcement activities.

If you have questions, Mitch Wallace of the Anchorage AKOSH office is your contact person. He can be reached at (907) 269-4949. By February of each year, when you post your injury log, please send Mr. Wallace a copy of the log summary. Please also include a copy of the most recent evaluation of your safety and health program and any success stories to mitch.wallace@alaska.gov

Once again, congratulations on your achievement!

Sincerely,

A handwritten signature in blue ink that reads "Tamika L. Ledbetter".

Commissioner
