“They literally changed my life. My counselor listened to me, and every step of my journey she and the whole office were right there for me, side by side. Everything that I needed to succeed they made sure I had, and I am forever grateful. Right out of training I went to work for a small company.”

- DVR Participant, Public Testimony

Public Testimony Excerpts

“I think it is a very good program for those of us who can’t continue to work in the fields we were working due to a disability and just need help figuring out what we can still do, and help us to accomplish that either with our old employers or find a new job.”

“I had to have brain surgery. It took me a long time to recover to where I thought that I might be useful on a job due to coordination, balance, and cognitive issues.

I’m so grateful for their professionalism and expertise. I am currently working as a volunteer. I am getting some much needed on-the-job rehabilitation after being out of work as long as I was. And I am on my way back to being fully recovered and functional in the workplace.”

“I needed some assistance with life itself and with going in the right direction. DVR was my savior. I was in a bad situation when I came to DVR, but I’m doing much better these days. I’ve got a full-time job. It’s not paying what I’d like, but I’m sticking with it until I find better.

I’ve been working an extra part-time job to help me get my finances in order after DVR referred me to a consumer credit agency that was free and helped me learn how to budget my expenses and create a manageable way to get out of debt.”

“I came into DVR, I was basically in crisis mode in my life. The counselors were able to supply me with not only resources, but spiritual and emotional help. It was a roller coaster. Now I work with the government. I am helping people myself, and I just wanted to say thank you.”

“First, I would like to thank the Lord; second, I would like to thank DVR. When I came to DVR, I was a mess. I did not have any experience in anything. I was an alcoholic. Eight years ago I started my journey of hope. I came to DVR. They helped me build up my resume volunteering. I didn’t have good credit. I built that up with my bank. I got my very first car I ever owned in my life at the age of 51. All this is because of DVR and how they helped me. They built me up. Now, a few month ago, I got a job with the State, and that’s where I am now, and I owe it all to DVR.”

“DVR were the first people to be supportive of my hearing loss, and helped me regain some self-esteem. I had no clothes to look for work. They gave me a voucher, and I got the clothes I needed. My car broke down, they had it fixed. I wanted to go to school so I could make a living and not stay in a dead-end job. They helped me get into Alaska Career College where I am a current medical assistant student who has perfect attendance, makes straight A’s, and will graduate February 28, 2018.”

 Tribal Vocational
 Rehabilitation

The Alaska State Vocational Rehabilitation Committee

The State Vocational Rehabilitation Committee (SVRC) is composed of volunteers from around the state who are appointed by the Governor to both advise and partner with the Alaska Department of Labor and Workforce Development's Division of Vocational Rehabilitation (DVR). Members help shape policy by participating in strategic planning, needs assessments, consumer satisfaction surveys, and ongoing program evaluation.

Members include people with disabilities, community rehabilitation program service providers, representatives from independent living, Department of Education and Early Development, Tribal Vocational Rehabilitation (TVR) programs, advocates, VR participants, and business leaders.

Each year, the SVRC submits this report on the status of the DVR program to the Governor and to the United States Department of Education's Rehabilitation Services Administration.

Division of Vocational Rehabilitation Mission

To assist individuals with disabilities to obtain and maintain employment.

The SVRC and DVR continuously work to improve the delivery of vocational rehabilitation (VR) services to Alaskans with disabilities. A keystone of this work is an ongoing, three year cyclical strategic planning process, which is the responsibility of DVR and SVRC leadership. The strategic planning process utilizes data captured from the tri-annual Comprehensive Statewide Needs Assessment (CSNA) report. The results of the CSNA are used to determine DVR priorities.

The strategic planning team includes the DVR management and leadership teams, SVRC members, the Client Assistance Program, and Tribal VR programs. The four goals listed below were identified for the 2017-2019 planning cycle and provide organizational direction and focus for DVR. Specific teams are tasked with duties that will ensure these goals are met. These assigned tasks are reviewed and updated quarterly.

Goal 1: Provide High-Quality Services

DVR will deliver high-quality vocational rehabilitation services to people with disabilities and assist them with obtaining employment that is consistent with their career goals. This goal reflects DVR's continued focus on improving the VR service delivery system.

Goal 2: Provide Highly Skilled Staff

DVR will recruit, employ, retain, and train the most qualified and highly skilled rehabilitation staff. This goal reflects the value DVR places on well-trained staff and the need for succession planning with the anticipated loss of key staff in the future.

Goal 3: Improve Organizational Systems

DVR will continuously evaluate the efficiency and effectiveness of organizational systems and identify opportunities to develop innovative solutions for necessary changes. This will include implementing advancements in technology as resources allow, analyzing current business practices to improve service delivery systems, and ensuring critical applications/systems are current.

Goal 4: Provide Leadership in the Workforce System

This goal is to strengthen our connection to other programs that serve individuals with disabilities. DVR will maintain a leadership role in expanding vocational opportunities for Alaskans with disabilities. DVR will continue to collaborate with other agencies to improve the delivery of VR services.

DVR at a Glance

Individuals served by the Division of Vocational Rehabilitation (DVR) represent demographics as vast as Alaska itself. Although each individual has their own unique story, looking at aggregate numbers can help provide the community with an understanding of the overall scope of Alaska's vocational rehabilitation (VR) program.

Vocational Rehabilitation Outcomes for State Fiscal Year (SFY) 2018

- 3,107 individuals received services from the VR program.
- \$3,202,275 was spent on direct services to individuals.
- \$1,195,187 was spent on Pre-Employment Transition Services provided to students with disabilities under the Potentially Eligible program.
- \$371,186 was spent on Pre-Employment Transition Services provided to students with disabilities under the VR program.
- 1,327 new individuals applied for services.
- 1,795 individuals received information and referral services.
- 406 individuals exited the program employed with an average wage of \$15.25/hr. The minimum wage in Alaska is \$9.84.

Of the 406 individuals that exited the program:

- 336 were employed in the private sector.
- 61 were employed in federal, state, or local government.
- 9 were self-employed.

Who DVR Serves

- 95.5% of individuals receiving services were significantly disabled, with multiple barriers to employment.
- 52% were Caucasian; 27% were Alaska Native; 6% were Black or African American; 13% were Multi-racial; 2% were Asian, and 1% were Pacific Islander or Native Hawaiian (participants may identify as one or more racial groups).
- 802 students with a disability (age 16-21) received Pre-Employment Transition Services under the Potentially Eligible (PE) program.

"I can honestly say that through the help of DVR I was able to get back on my feet again and reach some goals that I had set for myself."

- DVR Participant, Public Testimony

DVR Participants by Race SFY 2018

**Participants may identify as one or more racial groups.

DVR Purchased Services SFY 2018

The federal agency that oversees DVR is the Department of Education's Rehabilitation Services Administration (RSA). RSA has restructured service categories provided to individuals into five specific focus areas:

Career Services

Career Services consists of identifying the needs of individuals as their Individualized Plan for Employment (IPE) is developed. Career Services includes services such as labor market information, vocational assessments, diagnosis and treatment, and counseling and guidance. Career Services are provided to assist individuals in obtaining or retaining employment.

Training Services

Training Services are provided to assist individuals in accomplishing their vocational goals. Training Services are available for individuals who are unlikely or unable to obtain or retain employment that leads to self-sufficiency. Training Services includes services such as college/university enrollment (junior, four-year, and graduate

levels), occupational/vocational training, on-the-job training, and apprenticeships. Training Services assist individuals in obtaining an education credential, such as a degree or certificate, which will increase their probability of achieving competitive integrated employment.

Consumer Quotes from Satisfaction Surveys

"Very polite and very helpful."
 "My team was extraordinary."
 "My counselor was fabulous, she always presented supportive ideas and listened."
 "My case worker was very helpful in helping me attain clothes and a means of transportation."

Other/Supportive Services

Other/Supportive Services are available to participants who are receiving career or training services and to assist in reducing barriers to employment. Other/Supported Services include services such as support for transportation, personal assistant services, maintenance, rehabilitation technology, reader services, and interpreter services.

Pre-Employment Transition Services (Pre-ETS) Under the VR Program

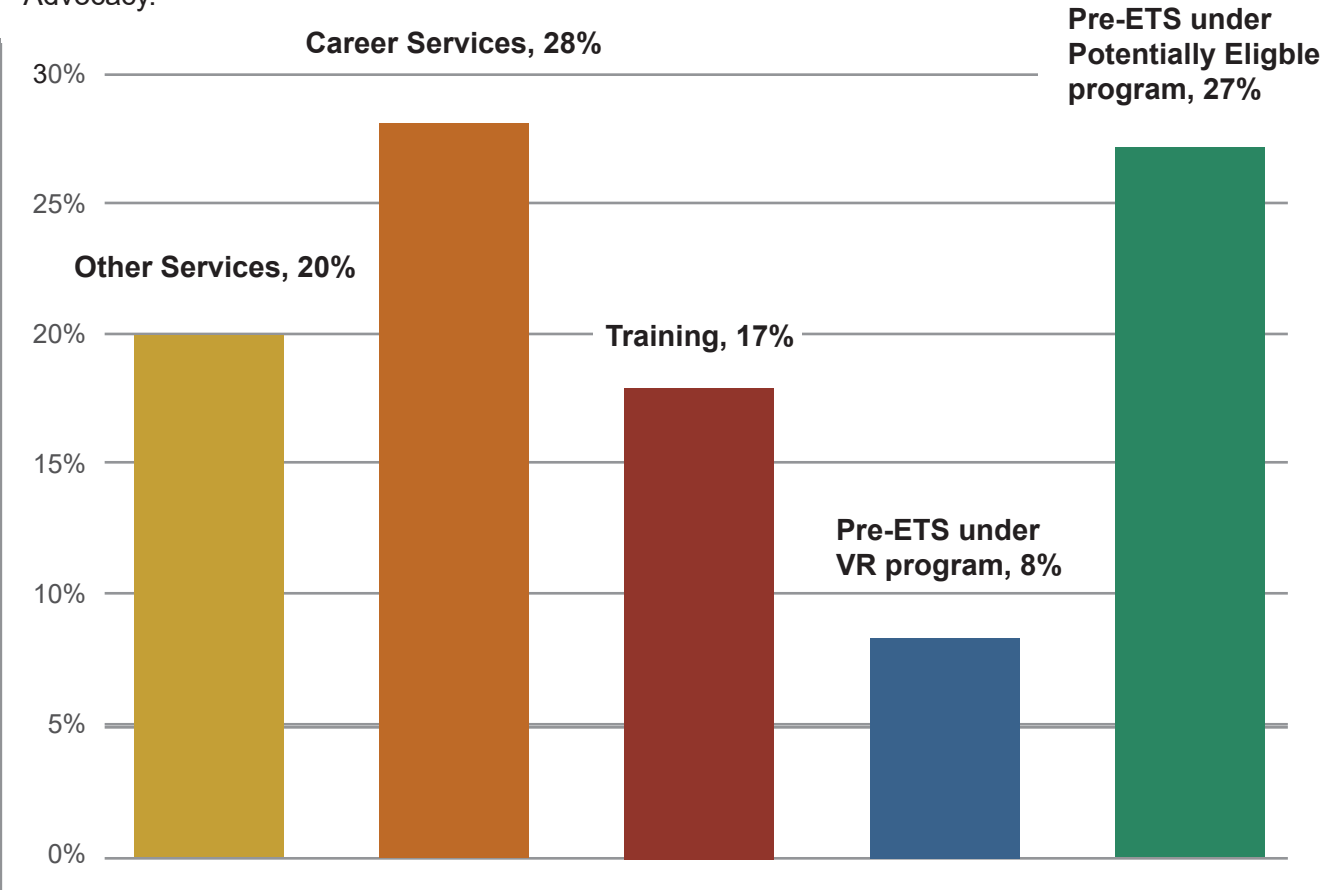

Pre-ETS are a specialized group of services provided to Students With a Disability (SWD) to prepare them to transition from an educational setting to post-secondary education or employment. Pre-ETS under the Vocational Rehabilitation (VR) program are delivered to SWD who have applied for VR services and can be provided at any stage in the VR process. These services are provided to a participant of the VR program who is 16-21 years old and currently enrolled in an educational program

DVR Purchased Services continued...

such as high school, college, or recognized educational program. The Rehabilitation Act of 1973 as Amended identifies five distinct Pre-ETS activities: Job Exploration Counseling; Work-Based Learning Experiences; Counseling on Enrollment Opportunities in Post-Secondary Education; Workplace Readiness Training and Independent Living; and Instruction in Self Advocacy.

Pre-Employment Transition Services (Pre-ETS) Under the Potentially Eligible Program

Similar to the Pre-ETS under the VR program described above, Pre-ETS under the Potentially Eligible program provides Pre-ETS to Students With a Disability (SWD) who are not applicants of the VR program, but who are considered to be potentially eligible for VR services. These services are provided to SWD who are 16-21 years old and currently enrolled in an educational program such as high school, college, or recognized educational program. These SWD are also provided with Job Exploration Counseling; Work-Based Learning Experiences; Counseling on Enrollment Opportunities in Post-Secondary Education; Workplace Readiness Training and Independent Living; and Instruction in Self Advocacy.

Locations of Alaskans Served SFY 2018

3107 Individuals Served Under the Vocational Rehabilitation Program

Vocational Rehabilitation Program: These are individuals who have applied for Vocational Rehabilitation services and have been assigned a Vocational Rehabilitation Counselor to assist them towards achieving competitive integrated employment.

802 Students with a Disability Received Pre-ETS Under the Potentially Eligible Program

Potentially Eligible Program: Pre-Employment Transition Services are services provided only to Students With a Disability (SWD) who are not applicants of the VR program, but who are considered to be potentially eligible for VR services. These services are provided to SWD who are 16-21 years old and currently enrolled in an educational program such as high school, college, or recognized educational program.

Leveraging Technology and Collaboration

With a relatively small population of 739,795 people,* spread out over a huge area, the geography of Alaska poses unique challenges to service providers. Alaska is the largest state in the United States by total area at 663,268 square miles, over twice the size of Texas. The Division of Vocational Rehabilitation (DVR) employs a number of approaches to face this challenge. Two cornerstone methods are using technology and collaboration with partner agencies.

Electronic Communication and Automation

DVR is in year three of a five-year pilot project using a communication software called SARA. SARA is designed to improve the communication between DVR staff and individuals through the use of text messages and emails, automating tasks, such as reminding individuals of appointments, gathering employment information, and collecting post-exit information. Purchase of this software was funded by the Rehabilitation Services Administration. The first year was spent designing the software to meet Alaska DVR's unique needs. Based on input from staff, there have been many improvements made over the past year to meet Alaska's specific needs. DVR staff began using SARA in November of 2017, and the Division has seen exponential growth in usage of the system. DVR will survey individuals in 2019 to determine their level of satisfaction in using this new method of communication.

Antidotal data suggests that client communication has improved, both in clarity and frequency. With automatic appointment

reminders now being sent electronically to individuals, there has been an increase in the number of appointments kept.

DVR is also looking for ways to use SARA to improve the overall DVR experience. Individuals are now able to use their smartphones to photograph documents to send to DVR staff, reducing the need for them to make a special trip to an office. Additionally, DVR staff can now electronically send documents for review and/or signature.

Better Training at a Distance

Due to the need for constant training on new data requirements imposed by the Workforce Improvement and Opportunity Act (WIOA), and with travel restrictions in place for the State of Alaska, DVR determined that quality meeting/webinar/training software was needed to meet the agency's training needs.

GoToWebinar is software that has been used by DVR staff when working with partners and other state VR agencies. It is easy to use, cost effective, and provides for a quality training environment for all DVR staff. In addition to Division-wide training, GoToWebinar is being used on a one-on-one basis to work with staff by sharing screens and having the ability to see information directly on their own computer. The software can host up to 180 users at one time and users do not have to be State of Alaska employees. Training delivered via GoToWebinar have been well received by DVR staff.

* As of July 2017, U.S. Census Bureau

Collaborating with Tribal Partners

Alaska is fortunate to have ten American Indian Vocational Rehabilitation Services (AIVRS) programs (also known as Tribal Vocational Programs or TVR), funded under Section 121 of the Rehabilitation Act of 1978, as Amended, who serve Alaskan Natives and American Indians with disabilities living in Alaska.

There are approximately 103,000* Alaska Natives in Alaska, which is 14-percent of Alaska's population. The majority of these individuals live in remote and rural communities like Dillingham, Bethel, and Nome.** There are many different types of Alaska Natives, each of which has its own culture and unique characteristics, including different languages and traditions.

AIVRS/TVR programs are vital partners to the Division of Vocational Rehabilitation (DVR). They help DVR serve Alaska Natives who are in remote and rural locations in a culturally sensitive manner. During FFY 2018, the SVRC was fortunate to have AIVRS Directors from Kawerak, Central Council of the Tlingit and Haida Indian Tribes of Alaska (CCTHITA), and the Kodiak Area Native Association (KANA), share their perspectives on serving Alaska Native individuals with disabilities in their different respective regions.

Kawerak and KANA Directors also presented to DVR's Rural Services Counseling Team which focuses on delivering and improving services to Alaska Native individuals living in remote and rural Alaska. In SYF18, 27-percent of the individuals served by DVR identified as Alaska Native, which is a direct result of the continuous improvement in service delivery that DVR has made because of its partnerships with AIVRS/TVR programs.

** 2013 study by the Alaska Department of Labor and Workforce Development

Consumer Satisfaction

Survey of Participants Who Exit DVR Services

The SVRC oversees the on-going consumer satisfaction survey sent to DVR participants who were closed after they had developed an Individualized Plan for Employment (IPE).

Consumer Satisfaction Survey Highlights

DVR is a consumer-driven organization where a participant's self-involvement in the vocational rehabilitation process and informed choice are vital for success. The consumer satisfaction survey focuses on four points: Consumer and Staff Interaction, Consumer Involvement, Program Information, and Program Satisfaction.

Surveys are sent to participants' email addresses via the online survey tool, SurveyMonkey. The surveys are sent on a monthly basis to individuals who have exited the program after an Individualized Plan for Employment was developed. Currently, 83% of DVR participants have a valid email address, which is a 5% increase from last year. The average monthly response rate is 8.6% which is similar to past reporting years.

Treating the Consumer Participant with Respect

Eighty-six percent of DVR participants who responded agreed that staff were polite and helpful throughout the time their case was open. This has increased by 8% from last year. Eighty percent of respondents felt their questions and requests to staff were replied to promptly.

Informed Choice and Involvement in the DVR Process

Seventy-five percent of respondents were pleased with their involvement in the decision-making process that led to their Individualized Plan for Employment. Additionally, 94% stated they knew the goal of DVR was to help them find employment or stay employed. This is a 12% increase from last year.

Referral of Others

Overall, 75% of respondents stated they would recommend Alaska DVR to others, which is an increase of 4%.

Review

The results of the surveys are reviewed on a quarterly basis and forwarded to the DVR Chief of Vocational Rehabilitation Services for follow-up and further action, if needed.

All Respondents SFY 2018 - Survey Categories

1. Program Satisfaction

I would recommend DVR to others.	75%
Overall, I am satisfied with the services.	75%

2. Program Information

I knew the goal of DVR was to help me find employment or stay employed.	94%
DVR staff helped me understand the services available to me by DVR and other agencies.	76%

3. Consumer Involvement

I was aware of my right to disagree and was informed about the process to appeal DVR decisions and about the Client Assistance Program.	76%
I was pleased with my involvement in the decision making process that led to my plan for employment.	75%
Alaska DVR helped me understand my abilities so that I could choose a job consistent with my strengths, resources, priorities, concerns, capabilities, interests and informed choice.	76%

4. Consumer and Staff Interaction

DVR staff replied promptly to my questions, requests and informed me of changes.	80%
DVR staff were polite and helpful on an ongoing basis throughout the time I had an open case.	86%

SVRC Expenditures and Resources

SVRC 2018 Expenditures

The SVRC 2018 funds were used for expenses related to quarterly meetings, three held via video conference, and one face-to-face, including the cost of a court reporter; as well as the cost of printing of the annual report and the purchase of framed certificates for the Committee's two Business Recognition Award winners.

2019 Resource Plan

FFY 2019 funds will be used to support the SVRC's quarterly meeting expenses, including one face-to-face meeting to be held in Anchorage, Alaska. This will involve travel and accommodations for members and staff, a court reporter, a sign language interpreter for public testimony, and conference room rental.

Funds will also be used to pay for travel, room and conference registration for two members to attend a National Coalition on State Rehabilitation Council conference and to purchase up to three framed certificates, or a similar type of award, for the winners of the SVRC's Business Recognition Awards.

SVRC and AT Subcommittee Ad-Hoc Members at their May 2, 2018 Quarterly Meeting

SVRC Activities

In partnership with DVR, the SVRC engaged in a broad range of activities during federal fiscal year 2018 from October 1, 2017 to September 30, 2018 to help ensure the quality of DVR's services.

SVRC Activities Federal Fiscal Year 2018

- Collected public testimony from around the state via email, phone, fax and written letters.
- Held four meetings, three of which were video/teleconference meetings and one face-to-face meeting in Anchorage, Alaska. Each meeting focused on different regions or catchment areas: Anchorage, Rural, Northern, and Southern.
- Conducted outreach efforts to recruit new members to join the SVRC.

Speakers

At each meeting, reports were given by the DVR Director, John Cannon or Acting Director, Mark Dale; Chief of Vocational Rehabilitation Services, Mariah Krueger; DVR Rehabilitation Manager(s); and partner reports from Tribal Vocational Rehabilitation; the Alaska Workforce Investment Board; the Client Assistance Program; the Governor's Council on Disabilities and Special Education; and the parent training organization "Stone Soup Group." The committee also heard from the following guest speakers:

• Rural Alaska Meeting Guest Speakers

DVR Rural Team leader and Southern Regional Manager, Jim Swanson; DVR Transition Coordinator, Jim Kreatschman; Project Director of the Alaska Work Incentives Planning & Assistance, Larrisa Cummings; Kawerak Tribal Vocational Rehabilitation Director, Sara Lizak and Kodiak Area Native Association Tribal Vocational Rehabilitation Director, Gwen Sargent.

• Anchorage Meeting Guest Speakers

State ADA Coordinator, David Newman; AADD Executive Director, Lizette Stiehr; Champney Consulting, Kim Champney; Anchorage Community Mental Health Services, Vocational Services Manager, Lisa McInerney; Mae Marsh; and blind students who participated in DVR's Pre-ETS Program.

One full day of the Anchorage meeting was dedicated to the Assistive Technology (AT) Act and the SVRC's dual role as Alaska's AT Council. It included an overview of AT Act activities and outcomes by Assistive Technology of Alaska (ATLA) director, Mystie Rail; committee training by DVR AT Coordinator, Jason Caputo; and a tour of one of the most advanced "smart homes" in the state.

• Southern Region Meeting Guest Speakers

Tlingit and Haida Central Council VR Director, Teresa Sarabia; UAS Coordinator of Counseling, Health and Disability Services, Margie Thomson; Disability Services Specialist, Jenny Malecha; and Disability Resource Coordinator II, Elizabeth Spence.

• Northern Region Meeting Guest Speakers

UAF Senior Architect, Johnathan Shambare; UAF Staff, Julie Johnson-Dubois; AT Instructor, Alaska Center for the Blind and Visually Impaired (ACBVI), Nate Kile; Orientation and Mobility Specialist/Rural Outreach Coordinator, ACBVI, - Elijah Haines; and DVR Vocational Rehabilitation Counselor III, Liz Eddy.

SVRC Subcommittee Activities

The State Vocational Rehabilitation Committee (SVRC) has five standing subcommittees: Executive; Program Evaluation; Assistive Technology; Planning; and Policy, Public Relations and Resources. The committee also has an ad-hoc Business Recognition Subcommittee. Below is a summary of each subcommittee's role and activities.

Executive

Chair: Dave Bérube

The Executive subcommittee is comprised of the Chair, Vice Chair, and the chairs of all the standing subcommittees. The Division of Vocational Rehabilitation (DVR) Director also attends as an ex-officio member. The subcommittee held monthly teleconferences where it reviewed the work of, and assigned work to, the other subcommittees and planned the SVRC's quarterly meetings, including identifying guest speakers. Considerable attention continues to be given to ensuring each member can fully and actively participate remotely and that the committee hears from all regions of the state, including rural areas.

Program Evaluation

Chair: Ric Nelson

The Program Evaluation Subcommittee met as needed throughout the year. The subcommittee focused on ways to improve public testimony and learn more about the State's Provisional Hire program, which makes it easier for State of Alaska hiring managers to hire a qualified person with a

disability, to determine if there are any opportunities for improvement.

Assistive Technology

Chair: Bonnie Lucas

The AT subcommittee provides consumer input and feedback on how the federal Assistive Technology (AT) Act funds are being used in the state of Alaska. The AT subcommittee brings formal recommendations to the SVRC for further actions.

AT Act funds are currently administered by DVR and passed through the implementing agency, Assistive Technology of Alaska (ATLA). ATLA is a non-profit agency based in Anchorage that provides services statewide. The AT subcommittee holds monthly teleconferences. ATLA Director, Mystie Rail and DVR AT Coordinator, Jason Caputo, also attend. The DVR AT Coordinator tracks grant progress, provides informal input to

SVRC Member Bonnie Lucas checking out AT Device at SVRC's One day AT meeting.

SVRC Subcommittee Activities continued...

DVR and ATLA, and brings issues to the full SVRC, as needed.

The AT subcommittee also plans an annual one-day meeting with the full SVRC that focuses entirely on AT. This year, it was held in Anchorage. The meeting focused on assistive technology issues within the state and gives SVRC members an overview of AT Act activities and progress.

Planning and Recruitment

Chair: Mandy Cleveland

The Planning and Recruitment subcommittee's role is to work with DVR on the preparation and updating of the DVR State Plan and tri-annual Comprehensive Statewide Needs Assessment, recruitment of new SVRC members, and contributing to the preparation of the SVRC's annual report on the status and effectiveness of Alaska DVR.

During this time period, the subcommittee focused on SVRC member recruitment.

Policy, Public Relations and Resources

Chair: Ken Schoenlein

The Policy, Public Relations, and Resource subcommittee reviews both policy changes (when submitted for review by DVR) and notices of quarterly meetings to communities. The subcommittee held meetings, as needed, to accomplish the goals outlined in the SVRC Tasks and Timelines document.

The subcommittee reviewed the DVR and SVRC websites and made suggestions for changes, which were all adopted. It developed the theme and artwork for the SVRC 2018 Annual Report, and reviewed and approved the content. The subcommittee also helped promote the quarterly meetings in the communities in which they were held.

Business Recognition (Ad-Hoc)

Chair: Bob Purvis

The SVRC's Business Recognition subcommittee annually selects and provides an award to successful large and small businesses who makes notable efforts to employ people with disabilities. The subcommittee focuses on a different region of Alaska each year. Nominees for these awards come from the DVR Business Team, which is made up of Vocational Rehabilitation Counselors from each of DVR's five regions.

This year, the subcommittee focused on Alaska's Northern Region. Lowes, located in Fairbanks, won the award for large business. Republic Parking, also located in Fairbanks, won the award for small employer. The awards are presented to employers at a local event, typically a Chamber of Commerce function. Award winners from the past three years were also recognized in a full-page advertisement in an October edition of the Anchorage Daily News, as part of National Disability Employment Awareness Month.

From Students

“I learned more than I ever have about sales and business through the business simulation. It has changed my mind on business.”

“This experience has changed how I look at business and I love it. My view on leadership has grown so much bigger and it’s really interesting how this week has turned out with this perspective.”

“Due to a company’s donation I was able to attend Business Week. This week I learned many new abilities. I was able to learn how to budget and keep my company profitable. I was lucky enough to be selected as my company’s CEO where I learned how to be a good team leader.”

“I am extremely grateful for this opportunity that you have provided me. I have learned a lot about what it takes to run and be a part of a business.”

“One lesson I learned during my time at business week is to reach for your dreams no matter what your circumstances are. I learned a lot about what goes on in a company.”

From Partner Agencies and Schools

“I’m really excited that your Financial Reality Fair is coming back because this was one of the most popular things we did for our Seniors last year and our staff really appreciated this as well! “

- Ketchikan High School principal

“I’m thrilled at the opportunity and will continue to advocate for your services in our facilities. I was just talking about the transition camps with our H&SS Public Relations staff in Anchorage and what a great story it would be to cover what is offered during those camps and the benefits to the youth.”

- Tracy Dompeling,
Director, Division of
Juvenile Justice

“We had 2 more students get Jobs this week with our partners, Alaska Commercial Store. We are up to four now. They really like the kids they are hiring that have completed Jobz Club.”

- Zuly Pitre, Bethel Special Education Teacher
