Marital Status: ☐ married or ☐ single #dependents1	AWCB#
GWW (gross weekly wages used to establish TTD rate)?	
TTD RATE \$ If TTD rate is at Max, call AWCB for SWW -see note at bottom of sheet -	CLAIMANT:
\mathbf{SWW} (spendable weekly wage) = GWW minus payroll taxes = TTd rate \div 0.8	
GWE (gross weekly earnings) = Post Injury earnings = hourly rate x hours worked	

TPD OR 41k OFFSET Worksheet

1. SWW of GWW (ttd rate ÷ .8)	2. Cap Post-Injury GWE (weekly earnings)	3. Sww Cap = Cap to rate table, ÷ by .8 if greater than ttd min. below ttd min, is the Sww Cap if exactly min go to green pgs	Tpd rate (#1 minus #3) x 0.8 (x cola)	41k offset rate (#1 minus #3) x 0.7 (no cola on 41k)	Max. 41k offset rate for this claim: (ttd rate – sww cap)	From	Through	Weeks	Days	Total

Rates shown on rate table(s) *below TTD Minimum* are spendable weekly wages (SWW)

If the gross weekly wages support a ttd rate of exactly *Minimum* then apply the gross weekly wages to supplement A (green pages) rate table. Amounts shown in (green pages) are **SWW's**.
